

# The Second Way - I Death of Timocles

This is not a happy tale

That they should meet was inevitable

Both child & great Captains

Celeste - lady Janet & David

Adam - Capt Fred & the Queen Joy

& both of these many tales are told

He - catlike

She - owlish

light choc skin

comes David's pink

mom's deep ebony

That both should be great Captains was no surprise to anyone

born of the Void

great jumps by twenty (first time)

both schooled on ( )  
fate or purpose?

custom, please then founders,  
studied for a twenty  
never apart

Never officially wed, all knew then  
to be man and wife

Took a ship - "per green boat"  
away for 2 yrs

reappeared in rings that shone with like frosty crystals to  
Shane

Him - jumping from  
surface of a planet at  
age 4

- her - laughing, playing w/  
the other, such good friends

Embarked on life of the Voyager  
love grew, had a child, Jeanne  
twin, lighter than man, silk fur

Son & daughter

Then they came.

This struck first at Pentecost  
why - got to start somewhere

singleship escaped - capt, never made sick, jumped  
straight to Earthpost Unrased alarm

When we arrived orbiting Pentecost, there was no  
sign of the invaders. Nor was there any sign  
of life, of any kind, on the planet below

kids

A, C, D visiting relatives on New Haven, having  
a brief holiday

They arrived

boiled from beneath space, surrounding the planet,  
thousands of ships

And they attacked

In that first attack, millions died

Daughter

Jeanne was one of them.

ABC, who had survived the initial attack, felt the loss  
of their daughter.

C raised her hands to the sky, raising the weapon  
used by her mother, shouting "NO!"

The invader was pushed back - the attack ceased for  
a moment

And in that moment, Adam saved what was left of his  
family in the only way he could - he jumped.

He jumped the entire planet, on the force of his will  
alone

The invader followed

C used her weapon and called on the other, called  
in grief and in anger and in retribution that a parent  
alone can feel

The other attacked the invader, flocking to them, shredding those  
that would cause a friend such pain

most of them died, but some of them fled, fled  
back to their own space.

"part & his mind, his will, A followed Rey  
he sensed the universe in which Rey lived, and he  
grasped it. He squeezed it, crushed it, collapsed it  
upon itself. With the force of his will, he collapsed  
the universe to a size smaller than the tears on his  
cheeks. With a final wave of grief, leaving the  
collapsed spee into oblivion." *denied the spee's existence*

AH reappeared in its orbit. A & C turned to  
each other, sobbing. Together they reached thru space  
& pulled Rey S to them from the other side of  
the planet.

After crying for a while, S said "she's dead, okay?"

(Cry)

You saved us, both of you saved us, looking up  
parents and, looking at each other

she said "we can start again"

S said "They're gone..."

his words were cold & distant. A & C looked  
down. S's eyes were distant. Then his body  
seemed to flicker - he felt him doing - something  
he solidified, looked up, and said sadly.

"But there are more"
