

The family that plays together stays together

Bob and Gina are a fun loving married couple in their mid 40's. They had three kids, Bob Jr.; 15, Suzie and Sara; 14. Bob and Gina had a very active sex life and while they didn't have sex in front of the kids, they didn't hide from them either. The family frequently saw each other nude or nearly nude and didn't make a big thing about it. Bob Jr. did like the looks of his sisters and mom when he saw them naked but never acted sexual toward them, he did often go to his room and jack off thinking of them. He liked the look of his dad also but beyond that had not had any other thoughts about guys, he just thought he liked the look of his dad's cock and compared himself to him. Jr. was a bit smaller but had a nice cock as well. The girls were pretty much the same way except they would go off to their room and rather than Jill off alone, they loved to 69 and eat the other's pussy to orgasm. Suzie was the one that brought up the idea of having real sex with the rest of the family and the two of them started planning and plotting as to how to go about it. Sara said she wasn't sure if their mom and dad would go along with it but was sure Jr. would as she had seen the way he looked at them when they were naked in front of him. He didn't get totally hard but she had seen him getting hard just before he would take off toward his room. The plotted to get with him first and then the 3 of them could seduce their parents. Sara told Suzie she had to start since it was her idea. Suzie agreed to fuck their brother that afternoon.

As usual that day was warm and the girls were going to go out to tan by the pool. Their pool was totally private from the outside world, except their own home, just the way their father had planned it as they all liked to tan naked and none of them had tan lines. Suzie decided to shave her pussy bare and asked Sara to help. Neither girl had a huge amount of hair but enough to just hide their pussy. Sara was surprised Suzie wanted to shave but agreed to help her. They

went into the bathroom and as they were getting the stuff together, Suzie said she wanted to do it pool side. Sara asked her why and Suzie said that way if any of the rest of the family saw them it might start the family fucking. Sara just shook her head and told Suzie she was a horny bitch and Suzie told her she was and couldn't wait to eat their mom's pussy and fuck their dad. With the stuff all gathered, the girls went out to the pool. Nobody was out but they knew everybody else was home. Suzie jumped into the water to get her pussy hair wet, she had been dripping pussy juice since they first started talking, and then got out of the pool. She lay on her back on a towel and told Sara she was ready. Sara got between her sister's legs and sprayed a small amount of shaving cream on her pussy hair. As soon as she spread it around, she took the razor and started shaving Suzie. Suzie looked down and smiled at Sara and thanked her for helping. Sara told her it was her pleasure and she couldn't wait to see the little girl look. What the girls didn't know was their mom was looking out and saw what they were doing. This made Gina start to get horny and she wondered if her girls ate each other's pussy or if this was just something new for them. She watched Sara work and as soon as all the hair was gone, she told Suzie something and Suzie jumped in the pool but quickly got back out to lay back down on the towel with her legs spread wide open. Gina wondered what was up but soon found out as Sara bent down and started eating Suzie's pussy. Gina without thinking, walked out to the pool to see up close. She was naked and as soon as she got beside her daughters they realized she was there. Sara pulled back and Suzie started to say something but Gina told them not to say a word and to continue. She got down on the pool deck and kissed first Suzie and then Sara. She kissed them both hard and with lots of tongue. She then told Sara to get back to eating her sister's pussy as it wasn't fair to leave her hanging. Sara went back to eating and Gina started kissing Suzie hard once again. Suzie was soon cumming and finally could take no more and begged her mom and sister to stop. After

Suzie came down and was able to breath, she looked at her mom and started to apologize to her for what they had done. Gina told her to stop and then said they needed to talk.

Gina took both of her daughters in her arms and held them close. She then told them how she was okay with what had just happened and hoped they could include her in their fun in the future. Suzie, being the outspoken one, told her mom that not only did they want to do it with her but hoped they could get their dad and brother involved also. Sara said the two of them had been talking and wanted to start having real sex. Gina asked them if they were virgins and they both said they hadn't put anything except fingers and tongues in their pussys. Gina asked them why they wanted to have sex with the rest of the family and Sara said it was because they loved everybody and felt it was the right thing to do. Gina told them it was illegal but she had played with a female cousin when she was about their age. They wanted to know more about that but Gina just said they liked to play with their pussys and eat each other out but it only lasted one summer. Gina then looked at Suzie's newly shaved pussy and told her it was beautiful and then looked to Sara and asked her if she was going to shave also. Sara said she hadn't thought about it but now that she saw and ate Suzie's bare pussy she would like it also. Gina said she would like hers bare as well so Suzie shaved both her sister and mother. The three of them, after Sara and Gina washed off in the pool, got into a daisy chain and ate each other. Sara ate her mom, Gina ate Suzie and Suzie ate Sara. They all came and fell asleep that way when Bob got home from work and found them sleeping on the pool deck. He saw the new look and liked what he saw, especially his daughters. He didn't know the girls had had sex but did wonder. He made a bit of noise as he got to them and Suzie was the first to open her eyes. She looked up to see her dad standing there above them, naked and with the beginning of a hard on. She got up on her knees and grabbing his cock, stuffed it in her mouth. This surprised Bob and he tried to pull away but

she had a hold of his balls and squeezed them so he stayed put. Sara and Gina woke up and saw Suzie sucking Bob and he started to say something but Gina spoke first and asked him if he liked Suzie sucking him. She smiled when she asked. He could only nod his head as Suzie had him close to cumming because it turned him on so much. Gina stood up and kissed her husband and told him welcome to the world of family fucking. She got on her knees along side of Suzie and liked his cock and balls which caused Bob to cum hard and fast. Suzie sucked and swallowed his cum and as he finished cumming, pulled off his spent cock and kissed her mother. They traded his cum back and forth and finally both swallowed it down. Sara had laid back and finger fucked herself to a cum while watching the action. Bob got down and took Sara's fingers out of her pussy and ate her to a cum quickly. After Sara had cum, the family all sat up and Bob asked what had started all the action. Suzie said that she and Sara had been having sex together for a while and she had convinced Sara to include the rest of the family but neither knew how to go about it. Sara said Suzie wanted her pussy shaved and decided to do it on the pool deck and that was what started it as their mom had caught them and soon her and Gina were shaved and the three of them ate each other to cum and that is how he found them. Bob looked at Gina and asked her if she was okay with all this. Gina said she was more than okay and couldn't wait to watch him fuck the girls and have Jr. fuck her. Suzie looked at Bob and said he had too much hair around his cock and it needed to go if she was going to fuck and suck him again. Bob looked down and then back at his daughter and said she could shave him if she wanted and Jr. would be shaved also as soon as he got home.

The girls told Bob to jump in the pool and get wet. Bob did just that and when he got out the girls told him to lay on the towel and Gina told the girls she was going to shave him since he

was her husband and had actually thought about the two of them being shaved bare for quite a while but had never said anything.
