At a local community college in Oregon eight students considered themselves more as a family than just fellow students. They ranged in age from 25 to 60 an equal number of men and women. After about a year together, being as they all had the same major and most classes together, the group would not only get together and have study groups but also BBQ'd and sleepovers. It wasn't long after they started having the sleepovers that they started having sex, mostly as a group. The group sex wasn't only heterosexual but many bisexual acts as well. The guys all encouraged the gals to get it on and after a few times of this the gals all decided if they were going to have sex with each other so were the guys. The next time they all got together for a sleep over, the gals told the guys no more girl/girl sex until there was also guy/guy sex. The guys were all hesitant but finally two of them said they were willing to try it but neither had been with another guy before. They talked about not knowing what to do and one of the gals said to just do what feels good to themselves. The two guys decided what the fuck and went for it. It didn't take long and they started making out as though they were with a gal and soon were in a 69 position sucking each other off. They soon came in each other's mouth and at first neither wanted to swallow but they both did and when it was all over the rest of the group applauded them and the guys both said they would do it again anytime, as they liked it. They said the next time they would try anal sex but got carried away with oral this time.

The group consisted of the guys; John (25), Bill (32), Joe (29) and Bob the old guy at 58. The girls were Julie (26), April (30), Peggy (42) and Betty the oldest of the group at 60. Betty could pass for 40 any day of the week and even though she knew it she never flaunted it but did use it to her advantage when the time was right, especially if she saw a younger man she was interested in sexually. John and Bob were the two guys that decided to get it on the first time and after the first time all of the guys decided

it was okay and got in on the action with each other as often as they got it on with the gals. Betty was the most bisexual, in fact if truth be known she was more into women than men. Bill was that way for the guys but tried not to let it show, that is why he wasn't one of the first to have guy/guy sex with the group. He had had a couple of encounters in the past but the group didn't know about them as of yet, he knew some day he would probably tell them, after all they were family and you didn't keep secrets from family.

Let's go back to the beginning and find see how this group became family and ended up having sex with each other. In the September 2009, the fall term at school started and the group were all new students having the same major. They all had the same classes that first term as per required by the department. They had to give the usual introductions on the first day where everybody in the class told their name, and some basic background. After the first couple of students the instructor, George, decided to spice things up a bit and asked them to tell about a sexual experience they had enjoyed. He went back to the first students and they told their stories and then it was Bob's turn. He gave the basic and added that he was 58 years old and this was his first time in college as he didn't go when younger but went right into the work force. Julie asked him what sexual experience was he going to share and he looked her right in the eye, winked, and said he wanted to share about the time, just recently, he had sex with a 26 year old young lady. Bob told the class how he had been at the Student Center looking at the different course brochures and this gal came up to him and asked him what his name was and what was his major. He told her his name was Bob and had not decided on a major yet and asked her name. He stopped and looked at Julie, who nodded her head. He said the gal he had met that day was Julie, he indicated her and she came forward to stand beside him. He put his arm around her and proceeded to tell the class how they had started talking and he finally asked her if she wanted to go get a coffee with him. She said she would love a cup so they headed to the nearest coffee shop and sat for about two hours talking and getting to know each other. She told him she normally wasn't as bold to come up to a stranger, especially an older man, and start a conversation but she found something about Bob she liked. He asked her what it was and she told him, with a blush, she saw a bulge in his pants she wondered if it was his cock and was as big as it looked. He chuckled and said probably not but he was proud of what he had even if it wasn't huge. She said she would like to find out if he was willing. She stopped and said she forgot to ask if he was married and told him she was not and never had been. He told he was not married but divorced and said he had a daughter about her age. He asked her if she was sure she wanted to be with such an old man and she told him she was actually attracted to older men, about her fathers age, more so than guys her own age. He asked her why and she said it was because she always, she blushed again, had wanted to have sex with her dad but was scared to ask him and now she was on her own she was still as scared. He told her if she wanted to call him daddy she could, he chuckled, and she said she liked that and looked at him and called him daddy for the first time. He said thought about the same thing with his daughter but never approached her out of fear of rejection and the fact he never wanted to hurt her in any way. Julie asked him if they were close and he told her they were very close and if they decided to date later she would of course meet her. She asked him to take her his place and have his way with her. He told her he had never met a woman as bold as her and she said she normally wasn't, remember?

Bob said that was about all he they were willing to share as what went on behind closed doors is for them and he didn't think it was necessary to share. The instructor told him he agreed and asked Julie to introduce herself more. She told the class her basics and added, after looking up at Bob that his cock was everything she hoped it was and satisfied her quite well. George thanked them and the class gave them a round of applause. Bob and Julie took their seats and the class continued introducing themselves. Nobody got into graphic details about their sexual experience, just the highlights. Soon it was Betty's turn.

Betty stood up and told the class she was 60 years old, nobody believed her until she pulled out her ID and handed to it the person in the front row who said she was telling the truth. She said her basic information was that she also was going college for the first time and that she was a widow after 35 years of marriage. She pushed out her chest and told the class she was proud of her tits as they were all her, nothing fake with them, and they still stood up after all these years. A young gal asked her how she did it and Betty told her she wasn't totally sure except she did exercise regularly. Some smart ass guy in the back asked her if it was mostly on her back. George told him that was out of line but Betty said it was alright and went on to say she had spent a lot of time on her back through the years but also on top as well as side by side. The guy tried to crawl into himself and apologized to her for offending her. She said she was not offended just not used to young folks asking her things like that. She said the sexual experience she wanted to share was the first time with her late husband. She said, like the rest, she was not going to go into great detail but wanted to say that she was virgin on her wedding night and he was so gentle with her that it made the experience the best she could ever imagine and it was the one she cherished the most of all the times they had sex through his life. She said they had tried just about every position and place they could and said they had even tried swapping and swinging for a while until he got sick. Julie asked her if they would still be swinging if he was still alive and Betty told her she thought they would be as they did like the lifestyle. She said that was about all she had to share and sat down. The next up was Peggy.

Peggy told the class she was 42 years old and was married. She said they had three kids. She said the kids were all in High School and she decided to return to college after taking several years off to get married and raise them. She said they were raising their kids as nudists and if anybody came to her home they should call first unless they didn't mind nude people. On of the gals said her family was nudists as well and said the two families should get together some time. Peggy said she would like that as they didn't know too many locally that were. George urged her to tell about her sexual experience. Peggy hesitated and asked about confidentiality in the class and if she said something that was illegal would it leave the room. George said the class all had signed confidentiality agreements at the time of registration and unless she was going to tell the class she murdered a person it would not leave the room. She went on to say she had had sex with her brother once when they were teens but they didn't continue and it was a one time event. Julie raised her hand and asked her why not and Peggy said they got scared because it was illegal and they didn't want either of them to go to jail. Julie asked her if she liked it and Peggy said it was the best she had ever experienced because she, like Betty, was a virgin at the time and he was so gentle and loving. She said they talked about it a few times through the years but since they were both now married, they didn't want to cause any problems with their spouses.

Another one of the students asked her if she had told her husband and if her brother had ever told his wife. She said they had not but and before she could say another word the student said he thought they both should and see what happens after they tell their spouses. He went on to say maybe they could get together as a foursome and play. Peggy said she had considered it a couple of times but chickened out just as she tried. She said she would ask her brother and see what he thought of the idea before she said anything to her husband. She said that was all she was going to share and sat down.

A few more students both male and female shared and it was interesting to see how many of them had just recently started having sex for the first time after graduating from High School. It was finally April's turn and after she told them about her basics and what her major was she blushed and started to stammer. George asked her what was the problem and said she had also had sex with a family member and it was her dad. Peggy asked if they were still active sexually. After a moment of hesitation, April said they were, in fact they even had a daughter together. She went on to say her parents had divorced when she was ten and shared custody of her. She told the class she was an only child. When she was thirteen and at her dad's for the summer, she started her periods and turned to him for advice and guidance. She said she could talk to him better than she could her mom at that age. They talked all about how she was becoming a woman and how her body was changing. Through the summer they seemed to get closer and at the end of August, she knew she wanted to have sex with him. The instructor told her she didn't need to share any more if she didn't want to but she said she wanted to finish her story. He said okay and she continued.

She said it was her that made the first move and that was by going to take a shower and not having a towel with her. When she was finished she called out to her dad to bring her one and when he opened the bathroom door to bring it to her she was standing there nude, dripping wet. She said he started to turn and leave but she told him she wanted him to dry her like he did when she was little. He told her he didn't think he should since she wasn't a little girl any more. She pouted and told him it would be okay, she would not tell anybody he saw her nude, especially her mom. He gave in and dried her. When she turned around for him to dry her front she looked him in the eyes and said he should take special care of her boobs which were "A" cups and pussy which had just a small amount of new hair growing over it. He tried to back away but she put her arms around his neck and started kissing him. He tried again to pull away and she told him she wanted him to make her into a woman and begged him to take her to his bed. He told her it was wrong and wiggled out of her arms and left the room. She finished drying off and went out in the living room, still nude, and saw him sitting on the couch with his head in his hands. She sat down beside him and he looked at her and saw she was nude. He told her to go get some clothes on and they needed to talk. She said she went to her room, dressed and came back out to talk. She told the class to make a very long story short they ended up making love a couple days later.

She said when she turned 18 she moved out of her mom's house permanently and moved in with her dad. She said they had been sleeping together every time she stayed with him. She said their daughter was 12, as she became pregnant about a month after she moved in with him. One of the students asked if her daughter had any medical problems and she told them she was a normal healthy young lady. Another student asked if she was going to have sex with her. She said her dad and her had talked about it but had not discussed it with their daughter as they wanted her to be a little older. Peggy

asked if she knew her dad was also her grandfather. April said they had told her when she was about five that fact and would occasionally remind her to not tell anybody. They told all of their family and friends she had hooked up with some guy at a party and got pregnant by him. She said she told everybody she didn't even know the guy and never saw his face as they had done it in the dark and they were both a little drunk. George asked April why she thought she could share it with the class. She said it was because of what had already been shared by others and knew the information would not leave the room. He thanked her and reminded the class about the confidentiality required. Many other students shared their information and sexual experiences, with only one other saying they had sex with a family member but it was a third cousin. George said in most states that distant relation was legal and they could actually marry.

Finally it was the time for the last three guys to share their stories. John, Bill and Joe told the class they didn't have anything exciting to share except each of them said they were single and enjoyed sex as often as they could. John said he lost his virginity after his High School Senior prom, Bill said he was twenty and married at the time but soon divorced. He said he didn't want to go into any further details and George told him he didn't have to share any more than he wanted. Joe said he lost his virginity when he was sixteen to his girlfriend at the time and they stayed together until after High School and when he went into the military and she found somebody else.

The class all asked the George if he was going to share and after some prodding and pushing he shared how he and his wife of thirty years were still sexually active. He said he should not participate in any off campus sexual fun with the students. Betty told him he could fuck her anytime he wanted. He thanked her but said he would have to take a rain check. This got a laugh from the class and about three minutes later the class ended and everybody started heading out. April went up to Betty and said she would like to get to know her better as she and her dad had talked about swapping and swinging. She said she was happy with their sex life and so was he but they thought it might be fun to try. Betty asked her if she would like to meet later and April told her she would call her dad and tell him Betty was coming for dinner. April gave Betty her address and told her dinner would be ready at 6:00. Betty said she would be there and asked what she could bring. April said if she wanted to bring a bottle of white wine that would go with dinner. Betty said she would and they went their separate ways.

April arrived home and told her dad, Steve, what had happened in class and how she had shared about their relationship and daughter. He started to get upset with her for sharing but she told him she was not the only one to share about incest and because of confidentiality it would not be shared outside of class. She said that she had invited Betty over because her and her late husband used to be into swinging and she thought she would be a good person they could talk to about it. Steve said if she felt safe with Betty then he would as well. He said they shouldn't share with Angie, their daughter, why Betty was there except she was a classmate. April said she agreed and got dinner going. At 5:45 the doorbell rang and Steve opened it to find Betty. He looked at her and she looked at him and they started laughing. April came out to see what was so funny and found them hugging. She asked them what was going on and Steve said he and Betty had known each other casually, through her late husband, for many years but she didn't know about the two of them and he didn't know she was into swinging. Betty said all the secrets were out now and held up the bottle of wine. They went to the kitchen and April

introduced Angie to Betty. Betty said she was a beautiful young lady and told April and Steve they had done well with her. She took notice that Angie already had nice boobs and figured they were at least “B” cups. She wondered to herself what Angie looked like naked and how her pussy would taste. Dinner went well and Betty made sure to include Angie in the conversation. After dinner they all went into the living room to continue their visit and Steve told Angie they had adult topics to talk about and asked her to go to her room. She said she wanted to be included but April told her she was not an adult so therefore she was not going to stay. With a few pouts she finally left the room. Betty so wanted her to stay and see her reaction to the topic of swinging but didn’t say anything. She watched her very close as she walked out of the room and told Steve and April how cute she was.

Betty asked them what they wanted to know and how she could maybe help. Steve said they were very happy with each other and their sex life but wanted to know what it was like to have sex with others while watching each other. Betty told them it was definitely different but her and her husband had enjoyed it for many years and because they loved each other so strong, their marriage and home sex life did not suffer. She asked them if their love was true and how their relationship was. Steve told her he believed it was very good and April had to agree. She added, because they were father and daughter and had a child together she expected them to say it was such. She asked April if she had had sex with any other man before and was told she had not as her dad had been the only man she had ever been with. April said that was part of the reason why they were interested in exploring the swinging lifestyle, so she could experience other men. Betty looked at Steve and asked him what he would do if April found a guy her age and wanted to leave him for the guy. April interrupted and said that would not happen because of she found she was starting to become attracted to any particular person she would be the one to stop the swinging, Steve agreed he didn’t think it would be a problem. Betty asked them about Angie and what they were going to tell her. April said they had been talking about it and had not come to any decisions as of yet. Betty asked if they were going to include her at all. April looked at Steve and back to Betty and said they had talked about bringing her into their bed and making love to her and have her father/grandfather be the first man she experienced. April told Steve she had mentioned it in class about bringing Angie into their bed. Betty asked if they had talked to Angie about it yet and was told they had hinted some but had not come out and asked her if she would join them. Steve said they thought they should wait until she was a little older, maybe fourteen or fifteen. Betty asked him what age was April? Knowing full well she was thirteen. He said she was thirteen and then he added that he thought Angie was physically more mature at twelve. April had to agree saying she didn’t have as big of boobs until she was fifteen. About that time Angie walked into the room. She walked up to her dad and took his head into her hands and kissed him. The kiss wasn’t a father daughter kiss because she stuck her tongue into her dad’s mouth and French kissed him.

He broke the kiss off and looked at her and asked her what that was all about? She said she had heard what they had been talking about bringing her into their bed and making love to her. He asked her what she thought and she answered like a typical tween with “didn’t that kiss tell you?” He looked at her and then the women and back at her and said he guessed he knew the answer. April asked her if she was sure and Angie said she was. She asked them to take her to bed right then and Steve said they had company. She looked at Betty and asked her if she would like to join them and her dad could have

three pussys to fuck tonight. This shocked all of the adults but Betty said she thought she should not join them the first time as it would be more special with just her parents. Angie said she could wait then but wanted to sit in on the rest of the adult conversation. Steve asked April and she told Angie she could but to keep an open mind. Betty said she thought it was time for her to leave as they had some important family business to take care of. She hugged and kissed each of them and thanked them for the dinner and said they would get together again soon and discuss the reason she was there. Angie said she heard them talking about fucking other people and hoped she would be included. April said they would see and walked Betty to the door. Betty said good bye once again and left.

Back in the living room, Angie was stripping her clothes off and telling her dad to get naked too. He told her to slow down and she said she was so horny from listening to them that as soon as he was naked she was going to sit on his dick and fuck him. April asked her why she was in such a hurry and Angie said she had wanted it for about three months but didn't know how to go about asking and tonight turned out to be perfect. Steve said he would like to take her to bed and make love to her there and she said she didn't want to wait she wanted to feel his dick in her then. April laughed and said she sounded just like her many years earlier. Steve said he remembered that day well. Steve finally took his pants and underwear off and was nude and as soon as Angie saw his dick her eyes got great big and said she hoped it would fit in her pussy. She said then biggest thing she had put inside her was a carrot, this shocked April and she asked her when she had done that and Angie said just the weekend before when they had left her at home while they went grocery shopping. She said she thought about the cucumber but was scared, now she wished she had used it as it was about the same size and Steve's dick. She went over and touched her dad's dick and said it was still soft yet hard and her told her that was the way guy's dick were. He showed her how to jack him off and then April said she should taste it. April showed her how to take it in her mouth and then held it out to Angie who took to sucking dick as though she had been doing it forever. The whole time she was sucking Steve, April was playing with her daughter's pussy getting it ready to be entered. Angie finally lifted her head and crawled up on Steve's lap. April held his dick up and Angie sat down on it. She started out fast but quickly slowed as it was bigger than she was used to. She was able to sit completely down and his entire dick was buried in her. She saw his pubic hair pressed up against her bare pussy and she, with pride, said "Daddy, you whole dick is in me." Steve said it was and he was proud of her. She French kissed him and then kissed April in the same way. She told April to get naked too as she wanted to play with her pussy. April did as asked and soon Angie was bouncing up and down on her dad's dick and playing with her mom's pussy. April could tell that Angie was close to cumming and whispered to Steve to try and cum with her at the same time. He looked at her and said he had been holding off and about that time he started to cum which caused Angie to cum and she screamed out how good it felt and she could feel him shooting in her. They came down and Angie got off her dad's dick and his cum started to drip out immediately. April told her to lie back on the couch and crawled between her daughter's legs and proceeded to eat the cum out of her and this caused Angie to cum once again. As soon as she was done, April kissed Angie and shared the remaining cum in her mouth with her. Angie said it tasted good and would eat cum any time. Steve knew April had yet to cum and told Angie so. She told her mom to sit back and dove between her legs and ate her mom's pussy bringing her to a cum as Steve played with April's boobs. Needless to say they started having sex together on a regular basis, in fact April had to remind Angie that Steve was hers first.

(Back to the group of classmates. The group as I said at the beginning of this story had started getting together not only for study time but also BBQs and sleepovers which have turned into orgies. ) The guys all agreed they would all try guy on guy sex since they didn't want the women to stop the girl on girl. After they had all experienced it several times they had to agree it was actually fun and they enjoyed it. Bill finally came out and said that he had had guy/guy sex before then but didn't want to tell the group out of fear but now that they had all experienced it he was okay saying that he thought he was more bisexual than not. Betty spoke up and said the same thing she said she actually leaned more toward women. Betty told Bill she would still enjoy fucking him any time he wanted. Bill told her she was welcome in his bed anytime as well. Betty asked April how things were going at home. Peggy asked Betty what she meant by that question. April spoke up and said that Betty was referring to the fact her and her father/husband had started having sex with their twelve year old daughter. This shocked the entire group, except Betty of course. Peggy asked her how it started and then John said for her to spill all the gory details. Of course the entire group was nude as they never wore clothes when they were together so it made it easier to have spur of the moment sex and then get back to studying or whatever. April related how it had started the night Betty came over for dinner to talk to her and Steve about the swinging lifestyle and Angie had listened in. She said Angie came to them and said she wanted her daddy to fuck her and invited Betty to join so Steve had three pussys to fuck that night. Betty interrupted and said she left so that it was only family as she thought it was important. Bill urged April to continue. April went on and told them about the evening and how it ended with Angie sleeping in their bed for the next week and how she was almost a nymphomaniac. Julie asked if they had done anal sex on her yet and April said they had not. Julie asked her why not, as she loved to be fucked in the butt. April said they thought she should get used to being fucked in her pussy and learn how to suck dick and eat pussy more. Bob asked if Steve and Angie could be included into the group. The rest of the group all agreed they thought it was a great idea but April said she wasn't sure. She said she would ask Steve but would not say they would join unless both Steve and Angie wanted to. She said she thought her nymphomaniac daughter would jump at the chance to have more people to fuck. She looked at Peggy and asked her if they had ever fooled around as a family. Peggy hesitated and finally said they had. April asked her when it started and did they still fuck each other. Peggy said it started when the youngest was about ten and they have been doing it ever since. She went on to tell them that was part of the reason they ended up becoming nudists as the family was having sex together so often that clothes started to get in the way, much as what had happened to the group of them. She invited April and her family over to see about introducing her family to the idea of joining the group as well. All this talk about fucking kids and such caused the group to become so horny there wasn't any one of them that wasn't right on the edge of cumming at the slightest touch.

April grabbed Peggy and said if their families were going to get together she thought they should get to know each other up close and personal as well. Peggy told her agreed and started kissing April. Nobody paid any attention to them as the rest of the group had pair off except today there was one extra gal, Julie, so she joined in with another couple and the guy had two pussys to play with. Peggy took on the role of the aggressor, and not in a bad way, and after they had kissed for a few minutes, she started working her way down April's body. She kissed and nibbled on her neck, which caused April to moan and beg her to please get to her pussy. Peggy whispered in April's ear that she was going to have

to wait as she wanted to make sure April enjoyed their time together. April said she was enjoying and begged her again to let her cum. Peggy ignored her and continued down April's body kissing nibbling all the way. She stopped at April's boobs and took each nipple into her mouth and gave them each of little bite. Not too hard as to really hurt but enough to give April a tingle. As she was nibbling/sucking on one she was playing/pinching the other with her fingers. She even left many small hickeys on each of April's boobs to remind her of the day. She left April's boobs and kissed her way down to her stomach where she licked and nibbled on her navel. This caused April to arch her back and moan so loud everybody looked over to see what was happening. Peggy finally lightly touched April's pussy with one finger and April tried to grab Peggy's hand but Peggy was too quick and grabbed April's with her other and held it away. Peggy finally brought her mouth down to April's pussy and blew on her clit. With no other touching or stimulation, April started to cum. Peggy clamped her mouth on April and started sucking and swallowing the cum as quickly as she could. Peggy continued to bring April off several times and April was cumming so much that it was like Peggy had turned on a water faucet. April finally pushed Peggy away and told her no more, she could not take anymore. April dove for Peggy and kissed her and told her how much she had enjoyed it and for Peggy to get ready as she was going to try and bring her off as much. April knew she didn't have to do all the nibbling like Peggy did on her as Peggy was already extremely horny and almost cumming without stimulation.

April went right straight to Peggy's pussy and started sucking and licking on Peggy's clit and pussy. She also licked Peggy's ass hole and this caused Peggy to start squirming and lifting her ass. April decided to see if she could put more than a couple of fingers in Peggy's pussy and was pleased to find out she could get four fingers in without Peggy being in pain. Peggy then begged April to shove her whole hand in and fuck her. April put her fingers and thumb together and started to slowly work them into Peggy but Peggy would have none of that slow stuff and grabbed April's hand and shoved. April's entire hand went in all the way up to her wrist and she started fucking Peggy with her fist. With her other hand she played with Peggy's clit and then she started licking and sucking on it again and used the other hand to play with Peggy's ass. April could feel Peggy's pucker open without resistance to one finger and soon she was seeing how many she could get in there and was surprised she was able to put three and then four in with no complaints from Peggy. She looked up at Peggy's face and saw Peggy looking down at her and all Peggy did was nod and April made another fist and shoved it in Peggy's ass. Now she was fisting Peggy in both holes. Peggy was beside herself and screaming for April to fuck her holes with her fists. This caused the rest of the group to stop what they were doing and they all crowded around to watch Peggy being double fisted. Peggy opened her eyes and saw Julie and told her to get her pussy over to her and sit on her face as she wanted to suck some pussy. Julie didn't have to be told twice and sat on Peggy's face. It didn't take long for Peggy to bring Julie off and get a mouth full of girl cum from her. April continued to fist Peggy in both her holes and soon Peggy was screaming again and just kept repeating over and over, "Yes! Yes!" and it was only a few more minutes and April could tell that Peggy was on the verge of a hard cum. She pulled her fists out and concentrated on Peggy's clit and soon Peggy started to cum and she continued to build and build until she was squirting as hard as if she was peeing. The whole group was amazed and somebody said "look at her peeing", April said it wasn't pee, and she would know since she was right there getting hit by it. She clamped her mouth on Peggy's pussy and drank down, as much as she could, the rest of Peggy's flow. Peggy started to slow down finally and

pushed April away. As soon as she could breathe semi normal again, she lifted her head and looked at April, who was still laying there and she could see April smiling. Peggy was finally able to sit up and speak. She told April she had never experienced anything as great as what April had just done to her. She said she had never been fisted before and she loved it. The group laughed and said that was obvious she liked it from her squirting like she did. Betty asked Peggy if she squirted often, as this was the first time Peggy had done it with the group. Peggy said she had only done it once, and a much smaller amount, in her life and that was after she had been married for about five years and she and her husband had first talked about incest and fucking their kids. She said the kids were very little at the time and the subject had come up for some reason. April said it sounded to her like talking and thinking about fucking her kids is what causes her to squirt then. Julie said she thought Peggy and her family need to stay as a fucking family so Peggy could squirt all the time as it was amazing to see. Peggy said she kind of liked it too but would not want it all the time as she was now exhausted. Bill said he needed to head out and wished everybody well. The rest of the group said they should all go as well and they all left, leaving Betty, Peggy and April alone together. Betty said she would love to join the two families sometime since her kids were all grown and across the country and she only saw them maybe once or twice a year. April said Betty knew she was always welcome at her home and now that Steve and Angie had fucked she didn't have to rush off like she had the other night.

Peggy went home and told her husband (Jerry) what they had talked about at the student party and what April had done to her with her fists. He knew all about the sex parties she attended with her fellow students and approved as long as she was still fucking him on a regular basis and told him all about the parties. When she got to the part about fucking the kids he stopped her and asked her if any of the other students had sex with their family members. She said that April did as she was married to her dad and they had a daughter together and she said they had started having sex with her recently. She told him how April had invited them over for a fuck fest dinner party and how the rest of the group also invited him and the kids as well as all other spouses and kids to get together. He asked if it would be a huge orgy and she said after everybody got used to each other it probably would. He said he was all for it then but only if the kids were willing. Jerry called the kids into the kitchen and in walked their 14 year old daughter (Sue) and their 16 year old daughter (Amy) and finally straggling behind their 17 year old son (Jerry Jr. or Bud for a nick name). The entire family was nude and recently they had all started shaving off their pubic hair and it made them all look a bit younger other than the girls having nice boobs and Bud having a 6 six inch dick, when it was soft and about seven when hard. Jerry told them they had been invited over to Steve and April's for dinner and also for a fun sexual evening. Peggy said they had a daughter, Angie who was 12 and they had just stated fucking her and she was a nymphomaniac according to her mom. Bud said he would like to fuck a 12 year old again since Sue was now 14 and getting old. Sue smacked him and Jerry told Bud it served him right and if he didn't watch out none of the girls would fuck him and he would only get to fuck his own hand. Bud turned to Sue and apologized to her and said he was kidding as she was not old and he really loved her. She told him he wasn't getting any of her pussy until she decided if she would accept his apology or not. Then she walked over and wrapped her arms around his neck and sucked his tongue into her mouth and said she forgave him and to fuck her right there on the kitchen table. Amy looked at them and just shook her

head and told her parents she never got any sleep anymore since those two were fucking all the time. Peggy told them they could wait until later as she wanted to talk to them about the rest of the students.

She told them how everybody seemed to be interested in getting their wives and kids involved in family fucking and she thought maybe they could help. Amy asked how and Peggy said they should invite those that had families over for dinner, Bud started to complain about having to wear clothes when they came over and Peggy said they all knew they were a nudist family and would be nude regardless if their guests joined them nude or not. Bud said okay as long as he didn't have to wear clothes. Peggy said she had something to share with the family about her past that she had never shared before. She took Jerry's hand and looked at him and then told her family that had been sexual with her brother when they were younger. Jerry laughed and she asked him why he was laughing and he told her he had known that for years as he and her brother were drinking one night he had told him. Peggy asked him why he never said anything and Jerry said he didn't care so it never came up. Sue asked how many other kids were in her study group and Peggy said she thought there might be about four or five others along with Angie so including them, maybe ten. She said she didn't know how many boys or how many girls. Bud, being the typical teen boy, said he hoped it was all girls. Jerry said that Bud was dreaming and besides he couldn't keep up fucking that many anyway. The girls laughed and reminded him that he was only good for at the most three times a day and the times were spread out and not back to back. This shut Bud up. The family decided they would go along with joining the study group for a huge orgy it sounded like fun. Jerry told the kids to go throw some clothes on as they could go out to eat that night instead of cooking. They all rushed to get dressed and the family went to IHOP, just for the fun of it. They continued the conversation while in route, at IHOP and after they arrived back home. By the time they arrived home and got rid of their clothes, they were all horny and all went to the master bedroom and used Jerry and Peggy's bed for a fun family fuck-fest that lasted until well after midnight. Finally Peggy looked at the clock and reminded the kids, she and they had school in the morning and Jerry had work. She told them all to go to bed and not continue fucking and if she found out they did, they would be punished. Bud asked if it went for her and Jerry as well and she said it did. She kissed all the kids good night and shooed them out of their room and after doing the normal bathroom routine before bed, she jumped into bed and was asleep before Jerry was finished in the bathroom.

When Peggy went to class the next day she couldn't wait to inform them of her family's discussion and decision. She walked in the door and saw April sitting there. She went up to her and French kissed her. This kind of shocked April as in the past the fuck group didn't normally share their affections in class. She asked Peggy what brought that on and Peggy told her part of the story but said she was going to share with the entire class and walked to her desk to sit down. The instructor saw her kissing April and came over to ask her what was up. She asked if she could talk to him in private for a minute and he agreed so they went out into the hall, which was sort of private, and she explained the kiss and what she wanted to do. He thought about it for a minute and decided it would be okay but cautioned her that there may be some students that would not be interested or may join only to chicken out at the last minute. She said she knew that but still wanted to share. He said for her to go for it. She asked if she could also do it in the nude, since her and her family was nudists. He said she could. They went back into the room and she returned to her seat and April gave her a "What's up look?" Peggy said

she would find out soon. As soon as class started George said Peggy had something she would like to share with the class and said if anybody was uncomfortable with what she was sharing they were free to leave. One of the wise cracking guys asked if she was going to share her pussy with them. He was immediately told if he opened his mouth like that again he would be asked to leave and not be allowed back into the class and would get a fail as a grade. He apologized to Peggy and as soon as she stood up and started taking off her clothes, you could hear a pin drop in the room. The only sound was gasps when she was completely nude and walked to the front of the room.

She said that it was no secret that she had been involved in an incestuous relationship with her brother when they were younger but what most of the class did not know was she and her husband, Jerry, were currently having sex with their children as well. She looked at April and without being asked, April stepped up beside Peggy. April took her clothes off as well. Now that the two women were nude and in front of the class, Peggy said there was a reason they had stripped. She said when she shared about herself before she said her family was nudists. She said April and her family had also started to be nudists at home as well. She said there was something else about their families they wanted to share. A girl in the front row looked at them, licked her lips, and asked if they were all having sex together as well. Peggy said they were not, and then added yet. She and April went on to explain to the class about them each having sex with their children and how the idea had come up to invite the entire class to a family orgy if they were interested. George interrupted and asked for a show of hands of those who thought they might like to join. All but one student raised their hand and it was the girl in the front row. Peggy looked at her and asked her why she didn't raise her hand and the girl said she didn't have any family near as they were all back east and she came out to Oregon alone and only had a female roommate. April asked if they were sexually active. The girl nodded and George said he would consider the roommate as family then. This brought a smile to the girl's face and she raised her hand and said she would love to join then. April went over and French kissed her and welcomed her to family sex and if she was ever able to do it with a real family member to go for it and the girl said she had a twin brother back home she has wanted to fuck since they were about 10 years old. Peggy asked what it would take to get him out there and was told basically just a phone call as they had been talking about him visiting anyway. Peggy went to her desk and picked up her cell phone and handed it to the girl and said the phone call was on her dime. The girl nervously dialed her brother. The entire class was quiet as she made the call and when she broke out in a huge smile they figured he had said yes. She hung up and said he was going to jump a plane the next day as he had three weeks off of work due to a factory shut down for repairs and he was put on the layoff status. She thanked the class for giving her the courage to make the call even if she could never go through with having sex with him it was going to be nice to see him since it had been four years. The class all cheered her and told her it was going to be fun for her even if they didn't fuck.

George said from that day on if any student wanted to be nude in class they were welcome. He went on to say they should all start bringing towels to sit on if they choose to be nude. Neither Peggy nor April had a towel so they put their panties back on but stayed nude otherwise. This started an entirely new lesson for him and he told the class they would be changing course themes for a while and would discuss incest and family loving. He asked the class if any others had ever experienced any type of

incest and only one gal raised her hand and she said she had kissed a cousin when they were about 13 and she had played with her cousins boobs but that was all. George noted that it was a female cousin and asked her what happened and why did they not continue. The student said it was one night when she was staying overnight and the two of them got to talking about kissing and how neither one had ever really kissed a boy, she suggested they try it with each other. She said while they were kissing it felt natural for her to feel her cousin's boob. She went on to tell the class that it was a one time event, as they both felt embarrassed and scared. George asked her to further explain what happened to cause them to feel this way. She said after they stopped kissing, which lasted a couple of minutes only, they looked at each other and her cousin said girls shouldn't be kissing and making out with each other and besides they were cousins. Another student asked if they were still close. She said they were and every now and then the topic would come up and they both would giggle and say how silly it was for them to do what they did. The same student asked if she could do it again, would she. The gal hesitated and said she would because even though she giggled right along with her cousin, she felt herself getting a little bit excited at the same time. The student asking the questions told her she should do what the other student did and borrow Peggy's phone. She said she didn't need to and called her cousin right then using her own phone and the class listened as she told the cousin about what the class was discussing and asked her if she ever got excited as well. She broke out into a huge smile and then asked her cousin if she would like to join the class family fuck party. She smiled again and told her cousin she was looking forward to seeing her and hung up. She said her cousin started talking dirty to her and how as soon as they got together she was going to eat her pussy and make her cum all over her face. George asked her how she felt right then and to show the class she stood up, stripped off her clothes, went to his desk, laid back and fingered herself to a huge cum. As soon as she was done the class applauded her and George said she would be getting some extra credit points for the demonstration. He asked the question again and nobody else raised their hand.

He said there was lots of information available about incestuous abuse in families but virtually none from families who enjoyed it. He said the main reason was because it was illegal for family members to be sexual unless they were second cousins or beyond in the family tree, in most states. He said he thought there were a couple that allowed first cousins to marry but was not sure and asked the class to look it up. One of the students with a Smart Phone said he was looking it up and only found laws saying second cousins but nothing about first cousins. He said he did find info about first cousins being legal in some other countries however. George gave the class an assignment of researching everything they could find out about families that were happy and enjoyed an incestuous lifestyle. He told them he wanted a 5-6 page essay. Some of the students started to grumble but he told them it would be worth 200 points and if they at least attempted a decent paper it would be worth a minimum of 75. He knew points and grades would motivate them. He also announced that the person with the best paper, in his opinion, would be asked to read it to the class. If they could get a family member to join them for a demonstration it would be worth 100 points extra credit. He told Peggy and April they were exempt from the research but he would still like them to write a paper about their families and how each member was impacted. They were allowed to participate in the writing contest however and the extra credit was available for them as well. They both asked if their children would be allowed to help with the demonstration and after a couple minutes thought, he told them yes but it had to be off campus and

could either of them handle the entire class. Peggy said she knew a place they could use that would work. He told the class that any and all demonstrations would be held off campus. This brought a sigh of relief to many as they weren't sure they even wanted to try to get a family member involved at school. Some guy asked if he could bring his dog as a family member and was quickly told to keep his animal sex to himself if he enjoyed it as none of the rest of them was interested. He apologized and said he was actually just joking. The girl sitting next to him she didn't think he was as it didn't seem like he was ever with any girls.

The class members who were naked put their clothes on. George said he thought they could take the next two class periods to do their research so they would not be meeting. He said he would be available for questions and assistance if anybody needed it. He reminded everybody to keep their mouths shut, except to family, as to what they were researching. The entire class said they understood and he dismissed them. He stopped Peggy and April and said he wanted to thank them for the idea and they automatically earned 50 extra credit points for the idea and being willing to bring in a family member to demonstrate. They both thanked him with a kiss and a rub of his dick. They asked him if he wasn't sure he wanted to join them in a family fuck. He said he would have to think about it besides he wanted to talk to his own wife and family. He said they had four kids, two boys and two girls 15-25. He said he had looked at his children sexually before but had never done anything about it and had never said anything to his wife for fear of her getting mad and turning him into the authorities or leaving him. He said his family, while not nudists, was not afraid to be seen nude by other family members. He said his boys were well hung and his daughter had bodies to die for. He added his wife was also a former model and maintained her body. Peggy asked him to show them his dick. He hesitated and then said since he had seen both of them nude why not. He pulled his zipper and unbuttoned his pants to allow his dick to fall out as he wore no underwear. The girls said they were impressed and took hold of it and gave it a couple of pulls. He started to get hard and told them that was enough and closed his pants. He wished them well and headed out the door. As soon as he got to his car he called his wife to see if she was home and whether or not the kids were as well. He was told the kids were all out and about but she was home and why did he want to know. He said he had some things in class happen he needed to discuss with her.

All during the drive home he tried to figure out what and how to say to his wife, Jane, and kids that he would like them to become an incest loving family. All the way home he would come up with different ways of asking or telling and none of them sounded good to him. The closer he got to home the more nervous he got but at the same time turned on to the fact that if the family went along with it he was going to be able to have sex with his children. He thought if they did it, they would have to agree to bisexual contact as well. Finally he pulled into his driveway and saw no other cars except his wife's. He gave a sigh of relief as he really wanted to talk to her alone first to get her reaction and if she was okay with the idea then they could, as a couple, talk to the kids if she agreed. He walked in the door and hung up his coat. He walked into the kitchen where he heard her working preparing dinner. He went up and kissed her hello and she kissed him back with a French kiss. This took him by surprise because normally when she was busy with dinner he got a peck on the lips and that was about it. He looked at her and asked what had brought on that kiss as it was not the way she usually kissed him when he got

home. She smiled and just said she loved him very much and wanted him to know that. He was still shocked and told her there had to be more.

She smiled and said she had run into one of his students earlier and when the two of them figured out who each other were they started talking. He asked her which student. She said it was a young lady named Julie. He asked what had they talked about and his wife said they had talked about a lot of things and then the subject of the class came up and Julie accidentally let it slip that the class was organizing a family orgy and when she asked Julie what she meant. Julie started to apologize and said she was not to say anything out of class and she could now fail because she violated confidentiality, Jane assured her she knew most of what happened in class anyway and for her to explain the family orgy. George asked his wife what her first reaction was. She said shock mostly and then asked Julie to tell her more. Julie told her how some in the class were sexually involved with family members and how they, as a class, decided to bring all the families together as a class experiment. She apologized if she shocked her and asked her to not judge her or the class. She said she would not and that is what lead up to the kiss she had just given him. George asked her what she thought and she said she would be for it if the kids were as she had wondered what they all looked like grown up and how they all tasted and fucked. They talked about it while she continued to get dinner ready. About the time she was finished with dinner the kids all seemed to arrive home at the same time.

They all walked into the kitchen to see what was cooking as it smelled so good. Betty the youngest at 15 told her mom whatever she was cooking smelled very good and she was anxious to eat it. Fred was 17 and he looked at Betty and thought to himself that she looked good enough to eat. Wilma the oldest daughter at 21 looked at her parents and could see they had something they were not sharing she could always tell when they seemed to be hiding something. Barney, the oldest at 25 walked in, opened the refrigerator and grabbed a beer. He offered one to everybody but nobody wanted one. He sat down and looked at his family and said how lucky he was to have such a great family. (Reader, before you wonder, Yes George and Jane were Flintstone fans when they chose their kids names, it was a good thing they didn't have anymore or there would have been a Pebbles and Bam Bam maybe. It is funny because they have the names of the Jetson's parents) The family all sat down at the dinner table and as dinner was progressing, Wilma asked her parents what they were hiding. What did they want to say but were afraid to talk about. She looked at her dad and he swallowed hard. She took his hand and said whatever it was he needed to share it as it seemed to be causing him some problems. George told her she had always been able to tell when they had something they were hesitant to say. She told him to spill his guts. George took a deep breathe and said his class had been discussing many different things but there was a group that had formed a study group and they had started to have sex with each other. Barney asked what that to do with them and why was he so nervous. Jane told them to hold their horses and all would be explained. George went on to say that there were a couple of the students whose families were involved with family loving. Betty asked him what he meant by family loving. He said they had sex together as a family, kids with kids and the parents with the kids. Fred asked him if he was sure. George said he was sure as it had been shared in class. He went on to say the class decided they would invite the entire class to a family orgy where everybody could have sex with whoever they chose. He looked at his wife and then at all the kids and said they had also been invited and would like for them to

go. Jane spoke up and said they had talked about it before they, the kids, got home and she was okay with the idea if they were. Betty was the first to speak and she said she would be willing if they rest of them were. She took Fred's hand and said she had always wondered what he looked like nude. Wilma, being the most forward of the family, stood up and started to strip. She looked around and said if they were going to be having sex together she thought they might as well be nude. George looked at Jane and shrugged his shoulders. Jane stood up and stripped as well. She told the rest of the family they might as well get naked and to finish eating as dinner was getting cold. When Betty took off her clothes she shocked everybody because she had her nipples pierced. Her mom asked her, when she had done that and Betty told her she and a girl friend had both done theirs about two months earlier. Betty said she had made sure she wasn't seen by her or Wilma as she didn't know what they would think. George said he wasn't happy but if she was, then he would overlook them. Fred asked her if they hurt and she said they did for the first few days but now they were okay. To show them, she grabbed each ring and gave them a little pull. The rest of the family cringed and told her she was nuts. They all finished dinner and the guys all cleaned up the kitchen while the girls went into the living room to talk.

Jane was the first to speak and asked the girls what they thought of the whole idea of having sex with the family and others. Betty said she was looking forward to having sex with a guy for the first time. Wilma looked at her with a surprised look and asked her if she had been having sex with her girl friend. Betty said she and the girl that had pierced nipples had been sexually active with each other for a year or so. Jane asked her if they used dildos or other objects to penetrate with. Betty said they only used fingers and they were both afraid of anything else. She said they mostly rubbed themselves to orgasm and maybe used their mouths if they were in the mood. She said they had been talking lately about dildos and vibrators but neither one were brave enough to borrow one from their older sister or mom. Wilma and Jane looked at each other and Wilma said she had a nice vibrator Betty could have as it was what was called a pocket rocket and it was small and slender and would not hurt her. She got up and went to her room and brought it back and handed it to Betty. Betty stood up and kissed her sister and soon the kiss turned into a kiss that sisters don't normally share. Wilma finally broke it off and told her little sister to sit down and she would show her how to use the vibrator. Jane said for them to wait as the boys might like to watch as well. She called out to the guys and told them to hurry up as there was something they were going to be shown when they got into the living room. George said to Fred his money was on a lesbian sex show. Fred said he was probably right and put the last dish away. The guys walked into the living room and saw the girls all sitting there but Betty had a silver object in her hand.

Jane knew what it was but Fred asked her what the big silver bullet was for. Wilma said it was called a pocket rocket and it was a vibrator and she was just about to show Betty how to use it when their mom suggested they wait until you guys came in. Fred said it sounded good to him and he sat down on the floor for a close up view of the action. His dad smacked him and said for him to back up and give the girls room. Fred backed up and Wilma got down on the floor in front of her little sister and without hesitation gave her a lick. Betty jumped but Wilma dove in and really went to town on her and before long Betty was wiggling around and begging her sister to never stop and all of a sudden she shuddered and screamed out she was cumming. Wilma stayed with her and finally Betty shoved her away and said "no more." Fred sat there with wide open eyes and said he had never seen such a thing

and wondered if that was what it was like every time a woman came. Barney told him not all women came as hard as Betty just had but he attributed it to the fact that it was Wilma and the family was watching. George said he was probably right. George asked Fred if he had ever had sex and Fred said he had only used his hand. He started to blush after he said it but to put him at ease his father said he used his hand often as well and looked at Barney. Barney said his hand was his best girlfriend. George looked at her husband and he nodded his head. She got down on the floor and took Fred's hand and said if he was interested she would like to be his first woman. Betty heard that and said she wanted her dad to be her first if Fred was going to fuck mom. Fred said he would be pleased if she would allow him to have sex with her. Wilma told Barney to get over there and fuck her hard and don't hold back as she was very horny from helping Betty cum and she was no virgin. Barney didn't have to be told twice and Wilma just laid back, spread her legs and Barney crawled between them and she grabbed his dick and as soon as he was lined up she wrapped her legs around him and pulled him in. He slid in without any problem as she was dripping wet from arousal.

Fred started out slowly kissing his mother, as he had with his few girlfriends. She sighed and he took it as though she didn't like it and started to back off. She stopped him and said she was enjoying it and for him to continue but he could play with her boobs and suck on her nipples just like he did when he was a baby nursing from her. Fred started sucking on her left nipple as he was feeling her right boob. He was a little rough, due to inexperience and his mother told him he needed to be gentler so the girl would enjoy what he was doing to her and not shove him away. He apologized but she told him she understood since he was so inexperienced and she wanted to help him become a wonderful caring lover for the women in his future. He thanked her and switched nipples. This time she told him how nice it felt and he was doing a wonderful job. She took his hand and brought it down to her pussy. As she was getting there she told him she thought maybe he should get down on the floor in front of her so she could show him what and where to do things to her. Fred got down and she showed him the different parts of her pussy and what she liked him to do to each part. She showed him her clit and took his finger and had him feel it to see what it felt like. She told him that every woman was different as some had very small clits and you could hardly see or feel them and others had very large ones almost as big as a small dick. She looked over at Betty and saw hers was on the larger side. She pointed it out to Fred and he went to Betty to see. He remembered what Wilma had done and stuck his tongue out and gave Betty a lick. She was watching him the entire time and moaned when he licked her. Jane asked him if he wanted to switch and he and Betty could make love to each other instead of he and mom being their first. Fred looked at his mom, who nodded her head, and then at Betty. He said it was up to Betty. She said she would love for him to be her first and her be his first. Jane and George said they would help them both and for them both to get down on the floor so they could explore each other better.

The four of them started to get comfortable when they heard Wilma moan loud and tell Barney to fuck her harder as she was almost there. The family decided to watch them for a few and soon Wilma had her legs clamped around Barney so hard you could see him turning red from the pressure. He was going to town and moving them around the floor so much George made comment that she would bet Wilma was going to have rug burn on her back. Betty said she wished it were her as it looked like Wilma was enjoying it to which Fred said when it was their turn she could get rug burn too. She kissed Fred and

said she sure hoped so. After a few more minutes, Wilma and Barney both started grunting and Barney said he was going to cum. Wilma told him to cum in her pussy. George asked Jane if she was safe from getting pregnant and George said she had no idea as she was 21 and was able to be responsible for herself when it came to birth control. Barney made a few last thrusts into Wilma and buried himself deep and she was saying "Yes, Yes, Fill me with your cum, make a baby in me!" Jane said she guessed Wilma was not on the pill and Barney had not worn a condom so maybe they had made a baby after all. While Barney and Wilma were coming down from their fuck high, Betty told Fred she was not on the pill either and asked her dad if he had a condom as she did not want to get pregnant yet. George said it was a good thing she asked then since he didn't need them as he had been fixed years earlier but he knew Barney had some and would go get one from his night stand. Betty told Fred she wanted him to get back to business on her though and as soon as their dad got back she was going to fuck him to death as she was so horny from watching their siblings fuck like animals. Fred followed his mother's instructions to be gentle with Betty's nipples and boobs and when he reached for her pussy he found a very wet hole. He had to look to make sure he was playing with her clit and when she moaned loud he knew he had hit the correct spot. She grabbed his hand told him he could be a little less gentle as she would not break. He put a bit more pressure on her clit and that drove Betty wild. She looked at her mom and thanked her for letting her have Fred for her first time. Jane told her she was welcome and asked her if she was doing okay. Betty said if she had known having a boy play with her felt this good she would have done it years earlier.

George walked back into the room about that time and told her she was young enough as far as he was concerned. Wilma had recovered and told Betty she would help Fred put on the condom. Wilma took the condom from her father and after she opened it she placed it on the tip of Fred's dick and told him he "MUST ALWAYS" wear a condom anytime he was going to have sex with somebody. He asked her why Barney didn't when he fucked her and she said they had got caught up in the moment and by the time she thought about it, it was too late. He asked her about yelling out for Barney to make a baby in her. She said since they were fucking bareback why not make a baby if they could. She said she would be happy to have Barney's baby she added she would even have his if it happened. She told Fred no more talking, he had a sister to satisfy, as she rolled the condom onto his dick. As soon as it was on she grabbed his dick and pulled him toward Betty, Betty simple spread her legs and told her brother to have his way with her and make her into a woman. As soon as Fred's dick touched her pussy, she jumped a little and her mom asked her if she was okay, once again. Betty told her she was fine she was just so sensitive it caused her to cum a little. Everybody laughed and Betty looked at Fred and said she loved him and at the same time he entered her slowly. She said she didn't want it too slow but to be gentle since it was her first time. He took his time entering her and by the time he bottomed out she was panting like a dog that hadn't had water for a week. Fred bent down and kissed her and when he did that she wrapped her legs around him and told him to start fucking her and she liked his dick in her pussy and wanted to feel it going in and out. She pulled Fred's face to hers and started French kissing him once again as he started the in and out motion of fucking. He quickly started going faster and faster until they were bouncing all over the floor. Barney laughed and asked his dad if that is what he and Wilma looked like. His dad told him it was. The parents were holding hands and Jane looked at George and told him how much she loved him and how excited she was to become an incestuous family. She

said she had thought about it several times through the years watching the kids grow up and now that it was happening it made her horny as hell and let go of his hand. He expected her to go to Barney but instead she went to Wilma and asked if she could make love to her and she wanted to suck Barney's cum out of her pussy. Wilma didn't say a word but lie back on the floor and spread her legs. Jane didn't even hesitate before diving in and sucking her son's cum out of her daughter and this soon brought Wilma to another orgasm. George and Barney were watching all the action and both of them were hard as a rock.

Barney looked at his dad and said he was the only one who had not any action. He went over to his dad and took his dick in his hand. George asked him if he was sure and Barney said he was and he also had some experiences with guys in the past. This surprised George and he told Barney that was cool and the class had said it was a requirement to be part of the group to be bi-sexual or at least willing to try. Barney bet down and started licking his father's dick and after he gave it a good tongue bath he took the head in his mouth. He held the head inside his mouth and played with it with his tongue and slowly let it slide into his mouth until his nose was in his dad's pubic hair. All George could do was gently hold his son's head and thank him over and over. Jane looked over and started laughing. Wilma looked at said, "Pretty good Barney, we are having sex with our parents but we each have the one of the same sex we are." Barney without taking George's dick out of his mouth just nodded and smiled. Because of the sexually charged atmosphere of the room and the fact that George had watched all the action without cumming he quickly told Barney he was going to cum and Barney looked up at him and smiled as best he could. George exploded into his son's mouth and throat and it wasn't a small cum but the biggest one George had had in recent times. Barney swallowed most of it but the last couple of squirts he kept in his mouth and tapped Fred on the shoulder. Fred turned his head and Barney French kissed him, sharing their dad's cum. This immediately caused Fred to cum and he announced it and Betty told him to fuck her hard and cum as she was there as well. Both of the young ones came at about the same time and Fred collapsed on Betty. They were both breathing hard and finally Jane dragged Fred off his sister and when he fell out of her pussy, his condom stayed in hanging out some. Wilma looked at her sister and told her she must have an extremely tight pussy to pull the condom off of Fred. Betty said she didn't know but it sure felt good to have his dick in her. Wilma pulled the condom out of Betty and held it up for everybody to see. She exclaimed it was the biggest load of cum she had ever seen, she added quickly that she had not seen all that many. Barney laughed because he knew she was very sexually active and had probably been fucked at least 500 times since she lost her virginity at 15. She did not have 500 guys but had maybe 5 or 6 guys but she had fucked as often as she could over the last 6 years. She had confided in him once or twice and mentioned she liked sex and some of her boyfriends were able to fuck her 3 or 4 times a night. Wilma held the condom out to Betty and asked her what she wanted to do with it. Betty said she had no idea.

Jane took it and said she had an idea for it and told Fred to open his mouth and tip his head back. He started to object but from the look on his mother's face he did as she asked. Jane emptied the condom into his mouth and told him to share it with his family. She was the first he kissed and then Barney, Wilma, his dad and finally what little bit was left he shared with Betty. After he was finished kissing everybody, he looked at his little sister and told her he loved her and thanked her for being his

first. She pulled him down and deep French kissed him once again and when they broke apart she thanked him for being her first and said he was welcome in her bed any time he wanted. She added, in fact if he wanted to move into her room and bed he was welcome. George said that would not happen, at least not yet. He told the girls they were going on the pill and for Wilma to make an appointment for both of them as soon as she could. She said what about if she was already knocked up by Barney. Jane said then she was going to have a baby but Betty was for sure going on the pill as she didn't need a baby at her age. George said he guessed he could tell his class they would join them for a family orgy after what they had just done with each other. Betty was the first to speak and said she thought they should and asked about the ages of all the other kids. George said the youngest he knew of was 12 and added her mom, who was his student, said she had turned into a nymphomaniac since she had started having sex with her parents. He added April and Steve, her husband, were also father and daughter and the daughter was theirs together not some other guy or gal. Betty said she was anxious to meet the class and she wanted to see what the little girl looked like. George also added there was a young lady in another family that was 14. He said the majority of the kids or his students were teens but added a couple of the students had family coming in from out of state and one gal it was her female cousin coming in because they used to be lovers, of sorts, years before. Barney said it would be fun to fuck the 12-year old as he bet she was like a little doll in his arms. Wilma called him a real pervert and said he should not be allowed to fuck her with that kind of attitude. George told them all had to go into this with an open mind and even though it was indeed perverted to not make it feel that way to any participant and if any of them did they would be asked to leave and that included the entire class and their families. He said he didn't think he needed to remind them that what they had just done and what his class had planned wasn't only immoral, in some people's eyes, but it was indeed illegal throughout the world and they needed to keep their mouths shut. Betty said if she told anybody it would be her girlfriend that was also her lover. Jane said the only way she would agree to that is if she brought the girl over and they talked to her and maybe included her parents as well in their family fun, but not with the class. Wilma said it looked like they were going to become a fun fucking family and looked at her dad and asked him if he was able to get it up again as she would like him to fuck her if he could. He said he would try and if he couldn't he knew how to please her without his dick working.

(Well dear reader, I need to take a break here and gather my thoughts. This is longer than I thought it was going to be and it was never intended to be an incest story but, like all of my stories they take on a mind of their own and almost write themselves. See you in chapter 2 and we will see what happens when the entire class comes together and parties.)
