Chapter 7

John started the grill and Justin went back inside the motor home to get the hot dogs. He called out and asked June to help him find all the stuff for dinner. Judy told her he probably just wanted to see if he could get another quick fuck in before dinner. June told her she was probably done fucking for the night so he wasn't going to get any even if he did try. The three of them outside laughed and when June walked into the motor home Justin asked her what was so funny and she said it was just something Judy had said. June and Justin found all the stuff for dinner and took it back out to the picnic table. John had tossed the dogs on the grill and asked his family if they had had a fun day. Everybody told him they had and they all thanked him for bringing them on the vacation. June said she especially appreciated how much closer they were as a family and chuckled at her dual meaning.

John went on to say how he had not planned for the sex to happen and was still concerned about how they were actually feeling about it. Judy spoke first and said she was so happy it had happened and now that she had had sex with all of her family members she knew she was going

to be bi-sexual, at least for now. Justin said he thought he might be too but wouldn't be sure until his dad had fucked him, if he was willing. John told him he was willing to help him out as he had never fucked another guy but had thought about it years ago. June said she was for sure going to be bi and hoped that all the rumors they had heard about the swapping and family love happening back home was true. She went on to say she might even bring up the idea of a neighborhood fuck party and all ages would be invited as she was sure some of the younger kids around 10-11 or fucking. John cautioned her about going public right away back home as so far it was only rumors and not fact about the family sex happening as well as the youngsters. Judy told them she could probably find out as she did babysit for several of the families. John told her he thought that would be a good idea as she had a good relationship with the kids and could probably get them to talk. The hot dogs were finally done and everybody started eating and the conversation stopped for a while. When it started back up Justin brought up getting the Jeep from home.

He asked his dad if they could go into town the next day and he and Judy could ride the bus back home to get the Jeep. John told him they could probably wait a couple of days but knew they should instead of always having to break camp with the motor home. It was getting dark and because they didn't have a campfire, they all ended up in the motor home and realized they were all exhausted. Judy said she was going to bed and looked at Justin and then her dad and finally her mom.

She asked her parents if there were any rules about sleeping now that they had all had sex with each other. June told her she was able to sleep alone or with whomever she wished, if they wanted to sleep with her. Judy said she was torn between sleeping with one of the guys or her mom. June settled it and told her to sleep with Justin as she and John needed to talk. Justin got

up, took Judy's hand and told her he would be happy to sleep with her and they headed to bed. June told them to have fun and Justin said his dick would probably not work again until the next day so he was going to sleep, if Judy wanted more sex it was going to be with her finger. The family, including Judy, all laughed and the kids went to bed. John and June went to their room also.

Once in their small motor home room, John and June sat on the bed holding hands and June was the first to speak. She asked John if what they were doing was wrong or did he think that no harm would come to the family now that they had all had sex together. John thought for a moment and finally spoke telling her he didn't think any real harm was done as everybody was a more than willing participant and other than when Judy's cherry was broken, nobody was hurt. He asked her what she thought of the entire idea and what they had done and she told him she had enjoyed it and, with hesitation, told him she had thought about it for some time. John asked her what had brought the thoughts to her and she said it was all the rumors about some of their neighbors. He said he had heard the rumors also and had been looking at Judy more and more over the last few months, wishing he could get into her panties. He never expected it to ever happen and had only considered it one of the unfulfilled fantasies of life. June told him she had been having similar fantasies about Justin and now that they had had sex with the kids, she was happy it had happened and had no regrets.

In the other bed, Judy and Justin were having a similar talk. Judy asked Justin if he was happy with how the day had transpired. He asked her if she meant all the sex. She told him yes, all the sex. He told her he was more than happy as he had tried to figure out a way to have sex with her for the last couple of years but had no idea how he would pull it off without causing trouble in the family. He asked her how she was feeling. She said other than her pussy was a

little sore from loosing her cherry she was fine and was looking forward to having sex with the entire family often from that day forward. She asked him if he thought he could get hard one more time and fuck her before they went to sleep. He told her she was more than welcome to try and get him hard and if she was able to he would be more than happy to make love to her. She looked at him and asked “make love?” He replied that he would like to make love to her as they could fuck any time. They both looked down at his dick and saw that it was rising. He told her the idea of making love was turning him on and if she turned herself around in a 69 position, they could get each other ready faster. She did as he suggested and it wasn’t long before he told her he either made love to her or she was going to get a mouth full. Judy crawled off and laid on her back, Justin got on top guided his dick into her pussy and slowly entered her. He made slow gentle love to his sister. They made love together for about ten or fifteen minutes and finally Justin felt himself getting ready to cum. He looked down at Judy, kissed her again and asked her if she was ready as he was. She told him she was more than ready and to please fill her pussy once again. She screamed at the top of her lungs she was cumming and came so hard she all but passed out. This caused him to cum and even though he didn’t think he could even get hard enough to perform, he had cum the largest amount of the day. He collapsed on his sister and soon she pushed him off so she could breath. He lay at her side and she turn their heads to look at each other, deep French kissed him, and told him she loved him and was happy they were together. Two minutes later they were both sleeping, holding each other in a lovers embrace.

Back to John and June, they had just finished making love as well and could not help but chuckle when Judy screamed she was cumming. John said to June that Judy was just like her as when she was extremely excited she screamed also. June told him she was looking forward to screaming again and expected it to happen while they were there camping. She told John the

entire camping trip so far had kept her on the verge of orgasm since Grants Pass and now that they had all had sex together, she was that much more excited, even if he had just made love to her. John told her he felt the same way except as she knew, he could only get it up so many times a day and he had already exceeded his normal that day. In fact he said he thought he might have used up several days hard ons. She laughed and said that she and Judy would take care of any problem he had getting up. He told her he had no doubt about that. June asked him if he was serious about him and Justin fucking each other. He told her he was and hoped Justin was as well. She asked him what had caused him to even consider it. He told her it was mainly because of her and Judy. He said since they had done the lezzy act, he wondered what it was like with Justin and after they had given each other head, it was time to take each other's ass cherries. He asked her if she was okay with it and June told him she was and even wanted to help. He asked her how she would help and she told him by preparing their ass holes with lube and she and Judy would suck them off some to get them hard. He told her he didn't think either one of them would have any problem getting hard but she was more than welcome to suck him any time she wanted and he was sure Justin felt the same way about her and Judy. He told her he was tired and needed to go to sleep. He held her in his arms, deep kissed her and told her how much he loved her. She told him she loved him as well and they quickly fell to sleep.

The next morning, Justin was the first to wake and he carefully got up, started the coffee and went outside. Because he was nude, the morning air was a bit chilly and he wished they could have been able to build a campfire as they were so nice in the morning. He sat down in one of the chairs thinking about the day before and before he realized it his dick was as hard as it had been the day before. He thought taking care of it himself and then decided to just let it be and sat there enjoying the morning. He heard the morning birds around the area and looked up to see a

coyote a short distance away. The coyote saw him and didn't really react but watched Justin just as Justin was watching him. Soon something distracted the coyote and it took off, leaving Justin to just look off into space. He heard some stirring in the motor home and about the time he was going to get up and go inside his mom opened the door. She walked out with two cups of coffee, handed one to Justin and sat down. She told him the other two were still sleeping and asked him how long he had been up. He told her only long enough to get the coffee started and sit outside for a few minutes. He told her about the coyote and how they had looked at each other. He said he could almost feel the dog telling him to enjoy the area but to take care of it as it was his family's home as well. June told him he might have imagined it but it was true about taking care of it and it was the animal's home. June looked at him and asked him how he was doing. He asked her what she meant, he was doing fine. She said about how the family dynamics had changed so much the day before and was he okay with it.

He told her he was fine and knew that the family would never be the same again. He went on to tell her how much he had enjoyed all the sex but it was more how much closer the family had instantly become. He said he knew there would always be a certain amount of arguments and disagreements but they were normal even before. He just felt a new closeness is all. She told him she felt it too. He asked her what was going to happen from then on. She said wasn't sure what he was asking and he asked her if were they going to turn into one of the families he had read about that were always fucking and sucking and soon it caused problems and they all hated each other. She told him she if she had anything to say about it, and she did, it would not happen. If she saw problems starting she wanted the family to discuss them and work them out and if it meant stop having sex with each other, then so be it. She had been holding his hand the entire time and squeezed it, in a loving way, to make solidify her point. She bent toward him and kissed

him like a mother and asked him to get them both another cup of coffee since they had drank the first one. He got up and went into the motor home. His dad was just getting up and told him to pour a cup for him. About that time Judy yelled out she wanted one as well. Justin poured all four cups and put them on a tray to take outside. He opened the door and went out to sit with his mom again and told her the other two were awake and coming out as well. John came out followed by Judy and they all sat around enjoying the morning sounds and coffee.

Judy looked at her family one at a time and finally spoke. She said how much she loved each of them and how much fun she had had the day before. She said before anybody asked, yes her pussy was a little sore but not out of commission. June said they all really needed to talk about what had happened and gave some of the details of her conversation with Justin. She said how she and John had talked the night before and Justin spoke up saying he and Judy had talked also. John said it didn't sound like talking to him when Judy was screaming she was cumming. This caused them all the laughed and broke the ice the rest of the way. June asked them all how they felt and how they thought it was going to affect them all as a family. Everybody seemed to be in agreement that they were okay but June could tell there was something on Justin's mind still. She asked him what was bothering him and he looked at her and then his dad and said he was still wondering what it was going to be liked to be fucked by his dad. John told him they would have to wait until later as he thought he had used his dick up the day before but he was looking forward to it as well. This caused them all to laugh and June got up to start breakfast. Judy told her she would help and told the guys to both go shower as they stunk from all the sex the night before. Justin swatted her on the ass and told her she was the pot calling the kettle black. This caused her to jump in surprised and laughed again saying she forgot that she probably smelled also. They all went about showering and cooking breakfast. As soon as

breakfast was finished, June suggested a hike around even though everybody had showered. They packed a day pack with snacks and water and John put it on. They took off to explore the area. The only thing they were wearing were shoes as they didn't think they needed to wear clothes since they hadn't had any one yet.

They hiked for a couple of hours, getting the lay of the land. They found they really liked what they were seeing and June told John she wouldn't mind living there full time. She told him as soon as they were home for him to check into buying the property. John told her he had been thinking the same thing as far as the purchase but not sure about living there full time, after all it was in the middle of nowhere. She had to agree with him but still wanted it for a retreat. He told her that was a great idea. Justin spoke up and said he liked the property as well and could see them developing it into a nudist community. Judy said it sounded like a great idea as long as it was in the bylaws that public sexual activity was acceptable and expected by all residents. June asked her if she had turned into a horny bitch over night and Judy told her it took one to know one and started laughing. The entire family laughed and said it seemed as though they had all turned into horny bitches and liked it. Judy told the family she was ready to head back to camp as she wanted to get fucked many more times and since they didn't have a blanket with them she was not going to do it where they were. The family agreed and headed back to camp.
