Chapter 16

Back in Lakeview June, John and Paula reached the lake property. John pulled the motor home in place and asked June to check and make sure he was in the spots he had marked prior. June and Paula jumped out and June looked. She said he was in the right spot and John thanked her and started using the leveling hydraulics. He soon had the motor home leveled and stable. June was giving Paula a short tour of the property, not there was much there yet. June had already found the spot she would like to put her home right beside the lake. Paula asked them all sorts of questions about the planned community and how large was it going to be, things like that. John said a lot of it depended on what the county said and building codes. He said the first thing they had to do was find a very large water supply. Paula asked him why he couldn't just purify the lake water and John told her he didn't think he could and besides it would take water out of the lake and the entire draw for them building the community was to provide a nice place to have fun in the water. He had a great park planned in his head with play equipment for the

younger kids and water-park for everybody. He asked her if she wanted to go swimming and rather than answer she took off running toward the water and said over her shoulder if he could catch her before she got to the water he could fuck her in the ass and then she would clean his dick off with her mouth. She no sooner got fuck her in the ass out of her mouth and John was running toward her. He caught her right at the waters edge and grabbed her arm, turned her around and kissed her hard. He asked her if she normally did ass to mouth and she said only once in a while and only if she knew she wasn't full of poop. She said she didn't expect him to catch her that was the reason she made the offer but since he had she would do as she said. They jumped in the water and June lay down to take a much needed nap after all the excitement of the day and ending it with getting her nipples pierced.

John and Paula swam and horsed around in the water for about an hour and finally had to get out as they felt water logged. They went back to the motor home to get towels and saw June sleeping. They were quiet so as not to wake her. They went inside and grabbed the towels to dry off. Paula asked him if he wanted her ass then and he told her he wanted to save it until June was with them. He said he would like to fuck her but since they had done it so many times already that day he wasn't sure he actually had any more in him, after all he wasn't 18. Paula laughed and said he could have fooled her before but she could wait if he wanted to. They dried off and got some sodas to take outside where they sat and ended up napping themselves.

Back in town Peter and George were talking, in Peter's office, about what had transpired that day. John and June being new to town but already they had had sex with them, wives and their daughters. Peter said he knew right from the minute they walked into his office, they were right for the town and he would do everything he could to get their community together. George said it was a good thing the town was so open to nudity and incest or they would all be in

trouble. Peter laughed and said yes they would. Peter's phone rang and from the conversation he was having George knew it was about John and June and it was good news. As soon as Peter hung up he told George the background check on John and family came back clean and everything John had said about his IT business and such were true. The only thing the check didn't show was any history of them having had family sex prior to coming into town. George said he didn't think that would be a problem since most people did hide it after all. Peter agreed and told George he was happy they decided to move there and wondered what they were going to do with their Seattle home. George said they may keep it as a place to go when John needed to be back up there.

John, June and Paula were waking up from about an hours nap and everybody chuckled and June finally said they must have exhausted each other from all the good sex earlier. John told Paula they had never done anything like they had done earlier that day and never thought about even having sex with others let alone their own children and somebody as young as she was. Paula said it was not a problem and she was happy she could help them start into a new lifestyle of free sex. She added that she could almost tell from looking at them they were clean of any STI's and even though she never asked she was comfortable having unprotected sex with them but she was surprised they were so willing with her. John said it had actually not crossed their minds but was happy she and her family were clean as well. He said he would hate to have done something like this for the first time in their married life and find out afterwards they were full of STI's. She assured them they were all clean as they were picky who they would have sex with unprotected. She noticed John's dick starting to grow some and she asked him if he was getting horny again. He said it was just a reaction but didn't think it would be in working order until the next day at the earliest. He was just happy to have her there as he missed his own kids so she was

filling in for them as a teen. June said she was missing them as well and wondered when they were going to leave Amber's parent's house and head south again.

They showed Paula photos of Judy and Justin and told her all about them. Paula said she was anxious to spend some time with them and to get to know them, she added she would love to get to know Judy very well. She looked at June and said she leaned more toward women but liked to be fucked by men as well. June told her Judy liked women as well but thought she was still more on the guy side. Paula said it didn't matter to her. She asked June if she was ready for some more girl on girl sex since John seemed like a party pooper, she laughed when she said it. John said he wasn't the party pooper, his dick was. To answer Paula, June leaned back and spread her legs and said she was all Paula's except her nipples, they were off limits.

Paula got down on her knees in front of June and started playing with her pussy. She played with her fingers and also blew on it. She even stuck her mouth on it and blew directly into June's pussy hole causing June to jump from surprise. She settled back down and told Paula it felt funny but would she do it again now that she was expecting it, she thought maybe it felt good. Paula blew into June once again and June reached down and held Paula tight to her and told her she liked it but not too hard. Paula blew into her a few more times and soon June announced she was going to cum and begged Paula to suck her clit into her mouth and suck on it. Paula did as June begged and as soon as she sucked June's clit in, June started cumming. John was watching the entire time and he told June how good she looked and how fun it was to see her with Paula. June just looked at him and smiled. June was finally able to come down and told Paula it was her turn and be prepared. Paula sat back on her haunches and she looked at June and told her she was ready if she was.

They traded places and June started going down on Paula. Paula told June to blow hard into her ass hole as well as she liked it just as much as pussy play. June blew into Paula's holes as hard as she could and this caused Paula to shake some. Paula told John to bring his dick over to her and she wanted to see if she could get him hard again. John stepped over and Paula saw that he was already partially hard and knew it wouldn't take much. She grabbed his dick and stroked it a couple of times before she pulled him over and sucked him into her mouth. She sucked on him for a while as she was being eaten and blew into by June. She soon had John as hard as he had been earlier that day and she told June to stop eating her and she wanted to watch the two of them make love. June said she was still too horny to make love she just wanted to be fucked. She got on her hands and knees and told John to fuck her in which ever hole he ended up in and to make it hard and nasty. Paula got behind her and started drooling spit from her ass to her pussy. June was dripping spit as well as starting to drip her own lube.

Paula told John she thought June was ready and John got down behind her and Paula took his dick and lined it up with June's ass hole and told him to fuck her hard in the ass. John didn't need much encouragement and as soon as his dick head entered June's ass he stopped for a couple of seconds giving her time to get used to it. She looked back at him after a couple of seconds and smiles at him as she nodded her head. John knew she was telling him she was ready and with one shove he bottomed out. He let her get used to the fullness and was soon grabbing onto her hips and slamming his dick in and out of her. Paula got down in front of her and June opened her eyes and saw a pussy waiting to be eaten. She didn't hesitate a bit and dove in. she sucked and bit Paula's clit and lips as well and blew into her. Before June could bring Paula off, John told the girls he was going to cum. June begged him to fill her ass and Paula said she was going to suck his cum out after he did. This caused John to start cumming, he didn't have as

much left since he had cum so many times but he did have some. He pulled out and Paula was right there waiting. She took his dick into her mouth and cleaned it off and made comment he tasted like ass and laughed. As soon as John was clean she turned to June and started sucking on June's ass hole trying to suck John's cum out. She finally succeeded and was rewarded with the small amount of cum John left behind. She cleaned the cum out of June and when she knew there was no more to be had she sat back and thanked them both for being so cool. June turned around and kissed her and told her she was cool as well. John asked them if they were hungry since he was. They both told him they were so he got up to start the grill as the girl staggered into the motor home to get some veggies ready to grill and give John the steaks to season and get ready.

(Guess I ran out of ideas for this chapter so I am stopping here. Judy and Justin are still in Portland, wonder what they are doing?)
