

The Family Vacation
Chapter 20
Incest, bisexual, family

Dear readers, I apologize for taking so long to get back to the family vacation. I started a couple of other stories and also got lost in the real world. I hope the wait will be worth it when you read this chapter. Where we left off was John and family was getting ready to break ground and start the new no-holds barred sex community.

Don't want to forget the formal junk. After the disclaimer begins the story.

John and Justin went to work breaking ground for their building and soon to be home near their motor home. They had rented a backhoe as well as a medium size dozer and after a few hours had the pad ready to start setting the forms for the foundation. John decided they would go with a slab floor rather than floor joist so he called the local plumber and told him he needed him the next day to lay some pipe and was told to expect the crew the next morning about 7:00am. John asked if he knew a good electrician as he had not lined one up yet and the plumber said his brother was one and out of work. John said to bring him along and tell him to bring a lot of conduit to do the underground for the electrical as well. After John hung up the

phone he told the girls and Justin to come with him to what was going to be the community park. They all walked, since it was only about ¼ mile from where there were and since they had been in Lakeview they had started walking more. John and Justin brought along a cart full of stakes and tape as well as some marker paint. They arrived at the park area and John told them he wanted to throw out some ideas and see what everybody thought. The first thing he did was grab four stakes and set the four corners in their approximate location. He then took the marker paint and painted different squares on the ground. He labeled each square with a letter and when he was all done the rest of them asked him what all the boxes and letters stood for. He told them that the boxes were the locations of the different play structures and then started telling them what each letter stood for. There were of course the normal swings, and play structures and then he got to one and it had the letter “S” and he looked at Judy and smiled and said that was going to be the stocks and as soon as they were built he was going to put her in them and tell the entire community to come fuck her in every hole and not to be easy on her and as long as she didn’t bleed they could keep on fucking her all day. She asked why and John said it was because she tried to sell her mother. She said she was only joking but June spoke up and said the couple didn’t think so and they were serious about wanting to own her and abuse her. Judy tried once again to apologize and John told her she was going in the stocks and she did not have any choice it was decided. She looked at the ground and everybody could see she was close to crying. Amber took her in her arms and held her. Amber looked at John and asked him if it was going to be a one person stock or two. He asked her why and she said she thought they should be a two person and she would join Judy that first day and they could fuck her as well. June said she liked the idea of two people as it would give the community more holes to choose from and she could see a male and female together. John and Justin finished spraying the lines for the total outline

and the group headed back to the motorhome. June said all this fucking talk had made her horny and she needed to get fucked but she didn't want to do it in the dirt. They were not back at the motorhome more than about two minutes and June had Justin's dick in pussy, John's in her ass and she had Judy and Amber lay so she could eat both of their pussys. It didn't take long for the family to cum as they were so charged up from the park. Amber and Judy sucked the cum out of June and they shared it with each other. Soon Justin, ever the teenage boy, said he was hungry. Everybody laughed and asked him when was he not hungry. He said when he was fucking or eating dick or pussy, this brought an even bigger laugh to them all. June told him since he was the hungry one to go fix some snacks for all of them and smacked him on the ass. He got up and went into the motorhome to fix the food.

Up in Portland at Amber's home things were getting hot. Alison was so horny from not being able to have sex of any kind all she wanted to do was play with her clit or have somebody play with it. She knew after the cum earlier that she may be a squirter that night each time she came so she got a bowl, in fact the same bowl from before, out of the kitchen and when her mother saw it she smiled. Allan asked what the bowl was for and Alison said she was going to cum in it each time unless she was being eaten as she felt like she was going to squirt each time she came and she was planning on cumming as many times as she could that night. She asked him to finger fuck her and play with her clit to show him. He was more than happy to. He went over and stuck his right index finger into her pussy and played with her clit with his left hand. It only took Alison about a minute before she told him she was going to cum and grabbed the bowl. She put the bowl in front of her pussy and told him to move his finger but to rub her clit HARD. He did and she squirted so hard and so much that when she finished they all looked at the bowl and saw about $\frac{3}{4}$ of a cup full of cum in it. Allan looked in the bowl and was amazed at the

amount of his sisters cum. He started to pick it up and she told him to leave it alone as she was going to cum in the bowl all night and when the night was over she was going to put her cum in a jar to use for cooking. Andy said he figured out what made dinner taste so good, it was Alison's cum. Alison said it was and asked if they wanted her to start saving her cum in a jar all the time. The rest of the family told her she could add her cum to their food anytime she wanted and if she wanted to put it in a jar and save it to go for it. Andy asked her when she was going to be able to fuck and she told him that Bob thought in a couple more weeks. He told her he missed her pussy and now that she had the holes in her lips he wanted to be able to fuck her hard and put a chain attached to them around his back when he was fucking her and it would pull on them. She told him it sounded like lots of painful fun and was looking forward to it. The rest of the night the family finger fucked Alison and fucked each other. Each time Alison came, she came in the bowl and at the end of the evening it had about three cups of her cum in it. Angie went to the pantry and got a Mason jar and washed it and handed it to Alison so she could fill it. When it was all in the jar and sealed she held it up and they all looked at it in amazement. The color and quantity surprised them all and they all knew their food would have at least a small amount of it in every dish. Angie said they could even serve it to guests without them knowing it. This caused Alison to smile and she said it would be fun to see some of the guys who had always wanted to get in her panties eating some without know they were eating her cum. Angie said she should make a macaroni or potato salad and have a picnic with the guys before they headed to Lakeview. Andy said he thought they should have a big BBQ and they could all invite some friends over. It was decided as soon as Alison was given the okay to fuck they would do that. They also started making plans to head south to visit Amber and her new friends.

Back in Lakeview, things were starting to come together. The plumber and electrician had each done their rough in and John had poured the slab for their house. Justin and Judy worked hard to help their parents and within about three days the walls were standing and braced off. John had ordered trusses and they were due in the next day. The whole town was excited to here about all the construction going on and some came out to offer their hand. John accepted all the help he could get and the help worked on the park. Within a few days the ground was prepped and the structures were going up. The kids play equipment took the longest to install and a cabinet shop in town custom built the double stocks. They were curved so the people in the stocks looked at each other and somebody could still get between the two people to have access to their mouths. Judy and Amber saw the stocks and told John they wanted to try them out as soon as they were set in place. John said he saw no problem and went to talk to the installers. They installers asked if they could use the girls when they were confined and they were told they could. The guys hurried and had them installed before noon and told John they were done. John went over, checked them out and called the girls over. He showed them the stocks and showed them how they worked. He told Judy to get down on her knees and put her head and hands in the indentations. She did and he closed the other half, locking her in. He asked her how she felt and she said she felt exposed. He laughed and then told her she was exposed. He told Amber to get in the other side. She did and after she was locked in, she said it felt wonderful. The stocks had been built with waterproof padding and the ground in front of them was padded to make it a little easier on the person's knees. June and Justin watched the whole time and John said the girls were ready to be fucked and or whatever else happened to them. The girls asked that they not be whipped or hurt this time but they wanted to be fucked and forced to suck dick and eat pussy. The installers asked John if they could have a go at the girls and John said they were more than

welcome since they had done such a nice job installing them. The two guys each stripped and were soon fucking the girls in the pussy but they soon switched to their asses. The girls said they did not do ass to pussy so the guys had to finish in their ass or jack off onto their backs or faces. Soon the guys were ready to cum and one pulled out and jacked off on Amber's back and the other ran to Judy's face and unloaded onto it. The girls thanked the guys and said they were ready to get out of the stocks. John said he thought he would leave them there for a while and told June and Justin they should go back to the house and work for a while longer. He thanked the installers and told them to tell their boss the stocks were better than he pictured.

Judy and Amber tried to talk John into letting them out of the stocks but soon realized it was going to do no good. He told them he was going to notify the rest of the folks in town they were locked in and see how many showed up to fuck and abuse them. Amber said she thought she was ready to be abused hard but Judy said she wasn't so sure. John laughed and said he was only going to make sure they didn't bleed or get seriously injured and walked away talking on his cell phone to somebody in town. Soon the girls heard several vehicles driving up and because they could only see what was in front of them, and that wasn't much, they didn't know that at least 15 people had arrived. All too soon they knew it when they heard all the voices and started feeling hands all over their bodies. A couple of the teen boys came around to their faces and told them to open their mouths and without any other preliminaries shove their cocks down the girl's throats causing them to choke and Judy bit the kid who was in her mouth. He pulled out and started to hit her when he saw John approaching. John walked up to the two boys and grabbed them and said if they were going to be violent now was not the time as the girls were told they would not be hurt and even though the girls liked having a cock shoved down their throats maybe today wasn't the day. He asked the boys if they were going to nicer to Judy and Amber

and they said they would. Judy looked at the kid who she had bit and told him she was sorry but she didn't expect him to be so rough. He apologized to her and she told him to come back and she would be happy to suck him off but to ask first before he just shoved. He walked up to her and she opened her mouth and sucked him in. She sucked good and hard and when she looked up at him, as best she could, he asked her if she was ready for him to throat fuck her. She tried to talk so he pulled his cock out and she said she was ready and asked if there was any guy who would like to fuck her pussy or ass. Two guys kind of shoved each other to get to her and she said not to fight as she was not going anyplace and they both could take turns. They agreed and one guy shoved his cock in her pussy and the kid shoved his cock back into her mouth and he could feel her open her throat so he went full length. Judy started swallowing and sucking while breathing through her nose.

Amber in the mean time was not just hanging around, so to speak. She had a guy with his cock in her mouth and a gal sucking her pussy and two little kids under her sucking and playing with her nipples and tits. She was soon rewarded with a mouth full of cum and when she could speak she said she would like to have two cocks in her mouth at the same time and if they could figure it out as well as one in her pussy and one in her ass. She told the crowd that her tits and nipples were fair game to abuse as long as they were not destroyed. Several people took her up on her offer. Four guys figured out how to fuck her at the same time and there were some little kids around eight or ten years old that decided to abuse her tits. They punched, pulled, twisted and generally abused them to the point they were extremely black and blue. She was unable to say anything because her mouth was full but John saw she was close to bleeding and call a stop to both girls' abuse and fucking. A few in the crowd said they hadn't been able to fuck them yet and they were told they could jack off and cum anyplace on their bodies they chose but

the girls were done having their holes filled and tits abused for the day. Those who had not cum, male and female, teens included, walked up and came all over the girls. The girls were released from the stocks, after they had been there a couple of hours and John helped them back to the motorhome. June took one look at them and immediately started to say how sorry she was. Amber stopped her and said she was the one who told the crowd to abuse her tits and Judy said she was fine as well. June helped them into the cramped motor home shower and washed them up. The girls went to bed and slept until the next morning when they were awakened by Justin asking if he could fuck them.

Judy awoke first and said he could fuck her if he wanted to but she asked him to be somewhat gentle as her ass and pussy hurt from the day before. He crawled between her legs, which she opened wide by pulling his knees up to her chest, and started eating her pussy to get her ready for his cock. Judy moaned and told him he was so good at eating pussy he could do it all day if he wanted. He stopped, looked up at her and told her she had the very tasty pussy and he always enjoyed eating it. Amber was awake by then and asked him about her pussy and didn't it taste good as well? He told her she also had a delicious pussy and he didn't know if he could decide which he liked the best. Judy told him that was just a cop out as he didn't want to hurt their feelings and he told them it was not as he enjoyed them both and that even though they tasted, smelled and came differently, he enjoyed them equally. With that he switched to Amber's pussy and Judy asked Amber to eat her since Justin didn't finish. Amber, Judy and Justin formed a daisy chain and ate each other and after a while they switched and Judy was eating Amber and she was sucking Justin and Justin was back to eating his sister's pussy. John and June looked at their kids and Amber and both looked at each other and June thanked John once again for bringing them on what started out as a vacation.

Well dear readers. I am going to leave this story the way it is and finish it by saying Amber's family came down to Lakeview to visit and ended up moving there. Alison became the town's go to slut to fuck and abuse. Justin and Amber ended up getting married and having kids who they brought up knowing it was okay to have sex with anybody, especially family members, at any time. Judy and Allan only hooked up to fuck alone, now and then but since open fucking was common and allowed in the gated community John had built, they had sex in a group or open setting often. The adults all decided they should have homes next to each other, built a covered walkway between them and it was well used. If you went to either home you never knew who was going to answer the door or who was fucking who. Many times the guys would get together for gay sex, as did the women. The town's folks all knew what the gated community was about and named it Fuck Haven Estates. One of the local sign shops built a beautiful sign that still hangs on the gate today.

Whenever somebody new comes into town whether to visit, passing through or plan on moving there, the question about Fuck Haven Estates always come up. They are told about its origin and that it is gated for a reason and it was not open to just anybody. If they planned on moving there and passed the screening, they might be allowed behind the gates. One of the requirements for families to move there was they had to be involved in incest, if they had kids. If they were childless due to being newlyweds or having grown kids, they had to allow themselves to be used as sexual playthings. No couple that passed the screening ever said no. Some of the young couples said they would be sure to use birth control as they wanted to know the father of their kids while others did not and the wife had no idea who the father(s) of their kids were. The playground was a popular place and it was not uncommon to see a father taking his kids and putting them in the stocks as punishment and whenever there was a person in the stocks the law

said they were open for sexual use. If they wanted to allow themselves to be abused there was a red flag raised, if they were there only to be fucked it was a green flag if there was no flag flying the stocks were empty. Some people, men/boys and women/girls, asked to be put in the stocks for a few hours of fucking fun. Other pieces of bondage equipment were erected and the regular playground equipment had straps attached so it could be used as well. It was not uncommon to see somebody attached to the swing set, spread eagled. Occasionally you would see somebody hanging upside down but only for a short period of time. There was a bin/cabinet with a variety of clamps, weights, straps, and other abuse toys that, with special permission, was opened for use. This was not opened often but when it was, you knew somebody had done something bad or was just a pain slut.

Thank you readers for waiting so long for this chapter and I hope I didn't disappoint you. There are probably no communities such as Fuck Haven Estates but if there are, rest assured they are well guarded and protected from the general public and 99% of what I wrote can (or should) never happen legally, morally or ethically. Enjoy and see you in the next story.
