Chapter One

In the United States all of the States had adopted the new International program for schools named Naked In School or N.I.S. for short. The program brought about a lot of complaints from many of the students but most parents seemed to be okay with it. When the school board was ready to announce it in the little town of Buncum, Oregon that they were calling for a mandatory attendance of all parents at the next board meeting, it brought a lot of questions from the students wondering what was going on. The night of the board meeting, which was normally held during the day but was moved to evening to accommodate the parents, the High School gym was filled to capacity. The Board Chairman stepped up to the microphone and thanked everybody for attending. He said he knew there were lots of questions and speculations about what the mandatory meeting was all about. He asked if anybody may have an idea of what the main topic for the meeting was. He heard everything from the district was broke and shutting down to they wanted money to build a new school, and a few off the wall things that

are not even worth mentioning. After he listened, he turned to the board members and they nodded for him to continue. He cleared his throat and told the crowd they were all wrong. He asked if they had heard of the newly State adopted N.I.S. program. Several of the parents said they had and praised it while others said they had not and others voiced their objections. He told them that the Buncum School District had adopted it as well and they called this meeting to explain it to the parents of all students K-12. Immediately, as expected, there were some parents that objected but most cheered. He went on to explain to those who did not know what the N.I.S. program was and how it was going to work.

The program would be instituted in all grades and the staff would be included as well. He looked at the board members and said they also would be included so as not to have people think they were above anything they required of the students or staff. As soon as he said that, the entire board stood, started to remove their clothes and was soon naked in from of the assembly of parents. As they were stripping, you could hear murmurs from the crowd, some were saying they thought it was disgusting while others were quietly cheering. He quieted the crowd once again and said now that they were naked he could explain the program in detail. He said he could tell there were some that were shocked and disgusted while others were not. He said the way the program worked was each student would be required to be nude for a week per school year. They would not be allowed to wear clothes at any time during the week and that included at home or anyplace else they were. He said there was another program called absolutes where the student would be nude for the entire school year as well. He said he wanted to explain each of the parts of the program individually so that everybody understood and he would be happy to take questions after he was finished with his presentation.

He told the parents the students would be chosen by lottery each Friday and on Monday they would start their week. He said once a student had participated they would not be required to again that school year unless they, or their parent, asked for their name to be put back into the lottery. He said while the students were nude they would be required to use the opposite sex restroom but, he added the district was debating about having all unisex restrooms full time. He said there was also a part of the program that was sexual related. He said while all grades would be included in the sexual aspect, it would also be age appropriate for the elementary age students and they would only be touching and discovering what the different body parts were, they would not be allowed to actually have sex. He said after the student entered middle school, full sexual contact was allowed and expected. He said the students in all grades would be shown some porn videos the next day at an assembly first thing in the morning and it would show them what vaginal sexual intercourse was as well as oral and anal sex. The videos would also include gay and bisexual acts as they would also be allowed and encouraged by the staff at the middle and high schools. He went on to explain what the program called reasonable requests. He said if a student asked a student in the program to perform a sexual act, and it was reasonable, the student would have to perform the act. If a student was asked, as example, to masturbate in front of the entire class the student would have to go to the front of the room and perform the act of masturbation through the orgasm stage, male or female. If they were asked to perform any type of penetration act they would be required to with another student in the program, unless they were alone in the class and then each teacher will have a vibrator in their desk as well as a fleshlight. A male may request to use the vibrator and anally fuck themselves if they chose. This brought a gasp from the parents. He quieted them once again and reminded them the staff was also included and the same requests could and would be made of them. He said if a student and

staff were asked to perform together they would also be required to do the requested act. He turned to the board and nodded.

A male and female came forward, got down on the floor and began to explore each other and were soon having full on anal sex and when the male was close to orgasm, he pulled out and the female sucked his dick into her mouth without hesitation and he came in her mouth. She didn't swallow but opened her mouth and let it run out onto her tits to show that he really had cum. The man got between her legs and ate her pussy and she came so hard she squirted into his face like she was peeing. Some people close made comment she was peeing but her cum was caught in a plastic sheet under them, which was put there because she was a squirter and they wanted to prove she was not peeing. After the couple was finished, her cum was poured into a clear cup and put under the overhead projector to show on the screen that it was not pee but indeed cum. The crowd cheered and one guy yelled out his wife was a squirter and they loved it.

He reminded them there was also what was called the absolute program where students would be required to be nude the entire school year, from the time of registration and they would not be allowed clothes at home either. . He said the school board had decided to be absolutes for their entire term in office to show their support to the students and staff. He said if a student were registered as an absolute, they would be issued a special wrist and ankle band to indicate they were exempt from the sexual reasonable requests. He quickly added they could volunteer to perform them at any time and they would wear another band to indicate they were required to perform as requested. He said they could volunteer for a minimum of one week at a time and the board encouraged every parent to register their children, if they were absolutes, so they could experience the sexual aspect. He again indicated the board and said they were all non-exempt from the sex part and could be asked to perform reasonable requests at any time and anyplace

they were seen on or off school properties. He said since the Federal Government required birth control at the age of ten, there would be no condoms issued or allowed. Boys would learn what it feels like to cum inside another person and boys and girls alike would learn what it feels like to be cum in. During oral sex, all of those performing the act would be required to swallow unless asked by the person receiving the oral stimulation to not for whatever reason. He said maybe they wanted to swap in during a kiss with said person or have them share it with another person in the program. Porn videos would be available to all staff members to show anytime they chose during their class periods as well as full non-restricted internet access. He said there would be web cams available in the high school and any parent that wished could sign a waiver for their child to perform live sex cam work. If a child did perform during the day on cam, they would be paid as any other person on cam is. The money would be put into a fund and at the end of the school year the funds would be available to the student. He asked if there were any questions.

Immediately several hands went up and the questions started out with what if they did not want their child in the program at all. The parent was told their student would be removed from school and would have to be home schooled their entire school life. The same parent asked if they could reenroll if they enrolled their child in the program. They were told yes but the student would have to be nude the remainder of the year and would be a non-exempt absolute but a regular participant and all sexual acts would be allowed. Another parent asked if they would be allowed to participate as a volunteer. They were told at that time there were no provisions for parents but it could be considered in the future possibly. Another parent asked about incest, would it be allowed or discouraged. They were told since all laws concerning incest had been removed it would be allowed and in some cases it might be encouraged. Another question was what exactly was not a reasonable request. The answer was if it caused the student permanent

body harm or modification. He went on to say they would offer tattoos and piercings to high school students but only with signed permission from the parent. Somebody asked about BDSM and was told at this time it would not be permitted but again as with the parent involvement it could be looked at and discussed. He said if a student were spanked it was a reasonable request but that was as far as that type went. The last question before the meeting was over was about bestiality and the parents were told it would probably never be allowed and at this time would not even be discussed by the board. He thanked all the parents for attending and told them he hoped they would all encourage their children to look at this as another lesson they would learn and it was part of their education.

When John and June walked out of the meeting with their friends and neighbors, Dean and Page, they started talking. Dean said he would like to see his kids, which were high school age, as absolutes but would also require them to be part of the program for the sexual side. Page looked at him in shock and he said he had been exploring the internet for nudist websites recently and had been thinking about talking to her about trying nudism and now that the N.I.S. Program had been brought to their town he would like the entire family to just be nude full time. He said the typical nudist was not involved in the sexual side but he liked the idea for the kids so they understood what being nude as well as what sex was about. June held Page, as she could see she was in shock from what her husband had just said to them. What she and John didn't say was they had been talking about it as well and had even tried nudism a couple of times behind closed doors at home with their kids who were also high school age. John said he thought it might be something to think about and left it at that. They walked home, since they only lived a couple of blocks away and continued talking about the meeting and how they were going to tell the kids.

Both sets of parents decided to go to one house that evening and have all the kids together and tell them all at once.

They went to Dean and Page's home and found all the kids there hanging out watching TV and snacking. When the adults walked in all the kids started asking them what the meeting was about and finally John told them to turn the TV off and they would tell them. John and June's kids are Paul and Pam, and Dean and Page's were Suzie and Jack. Paul and Pam are twins at 16 and Suzie is 13 is in middle school and Jack is 15 in high school. The kids could see that Page was shaken and asked her if she was okay. She said she was and without hesitation started telling them about the N.I.S. Program. She was surprised when all she saw was smiles on all the kid's faces and finally after telling them the basics she asked them why they were smiling. Suzie said they had all heard of the N.I.S. and while they were at the meeting the kids all got on the internet to find out more about it as rumors had been spreading that was what the meeting was about. She said they all decided they liked it and wanted to be included. Without thinking she said she was looking forward to getting fucked for the first time, immediately she realized what she said but before she could say anything her dad told her she shouldn't talk that way but to say she was looking forward to having her virginity taken from her. She apologized and said regardless she wanted to have sex soon as some of her girlfriends had been talking about it lately and she wanted to try it as well since they said they had enjoyed it.

Dean told them there was what was called the absolute part where a parent could register their child or children to not be part of the sexual aspect but the student would be required to be nude for the remainder of the school year after they were registered. Pam asked if they could still be part of the sex and her mom told her they could if they wanted but they would be required to participate for no less than a week. Dean said he had been researching nudism recently and was

thinking about trying it as a family before the N.I.S. was brought to town. Before he could say another word, Suzie asked them if they could all be nudist as she liked the idea. This surprised everybody since she was the one who usually was so shy about her developing body and was always trying to cover it up. Page asked her if she was sure and to show she was, Suzie stood up and started taking off her clothes. This caused the rest of them to be shocked but it wore off quickly and Pam followed along. Since the two teen girls were stripping the boys were watching with open eyes and as soon as the girls were both nude the boys told them both how beautiful they were and how they wouldn't mind getting in their shorts. The girls laughed and said they didn't have any shorts on as they were naked and call the boys perverts. The adults looked at their daughters and then at each other and the women shrugged their shoulders and the adults stood to get nude as well. They were about half nude when John told the boys it was time for them to get naked as they would not be allowed to stay dressed if the rest of them were naked. Neither Paul nor Jack wanted to strip because they were both as hard as rocks and embarrassed. It was their mother's that figured it out and Page told June to help Jack and she would help Paul. Each of them went to their neighbor boy and told them to stand and proceeded to strip each of them naked. As soon as each boy was nude their dicks were sticking out and they started to cover them when the moms slapped their hands and told them they would have to show them in school so they might as well get used to it at home first.

Both girls looked on with huge open eyes looking at the nude guys and finally Pam asked if she could touch and was told she could. What surprised everybody, especially Paul, was she went to him and started feeling his dick and balls and was soon masturbating him. Suzie, not to be outdone by Pam, went to her father and started doing the same thing. Dean tried to stop Suzie but she was determined and Page told him to enjoy his little girl if he wanted as she would help

Jack out. John and June looked at each other and each could see a bit of disappointment in the other but started making out like they were home alone in their bedroom. It wasn't too long for Paul and Jack to reach the point of cumming and they told the rest of them they were going to. Pam and Page both told them to cum and no sooner had they said it and the boys started cumming. Page, knowing what it was all about let Jack cum all over her face and neck. Pam, not knowing was surprised when the first spurt shot out and hit her in the face and she opened her mouth to say something and got a mouth full before she could help it. She swallowed without thinking. Dena told Suzie he was going to cum and she asked if he would cum on her face as well as she wanted to know what that was like. He took his dick into his own hands and told her to close her eyes and as soon as she did he started cumming on her face. Because he was cumming on the face of his thirteen year old daughter, he came bigger than he had in a long time. He finally started slowing down and told her to open her mouth, which she did without hesitation and he stuck his dick head in and told her to suck out the rest of his cum. She did and as soon as he knew he was done, he pulled out and told her not to swallow. Page knew what he wanted and went to her daughter and took her head in her hands and started French kissing her and sharing her dad's and brother's cum with her. This was too much for John and June and they started cumming as well, but without the fanfare as the teens. As soon as everybody was finished cumming, Page went to get wet wash clothes and the rest sat down to relax. They remained paired up as they were but sitting.

June asked Pam why she chose Paul and not Jack. Pam confessed she had been fantasizing about having sex with her twin for a couple of years but was afraid to say anything. She said she figured they all were so excited she thought she could get away with it tonight. Dean said that incest was not illegal anymore and there were not even any age restrictions like

there had been when the law was first repealed. He said they had forgotten to mention that when they told them about the N.I.S. program but it would be quite common at the schools. Suzie pouted and said she wished she was in high school so Jack could be having sex with her there. Page said since it looked like they were all going to adopt the nudist lifestyle, she could have sex with any one of them any time she want, she said well maybe not any time but often at least. This seemed to satisfy Suzie. John said he thought they should go ahead and register the kids as absolutes the next day but not include them in the sex part. He asked the teens if they had any objections and they all said they did not. Suzie, being the boldest for some reason, asked if she could be in the sex part. Her mother cautioned her since this was going to be the first week ever, she did not want her as anything except an absolute. She said the students in the regular program would be sexually worn out within a couple of days and she didn't want Suzie to experience such a large number of requests so soon. She suggested giving the program about a month so the novelty would wear off. Suzie said she hadn't thought about that but she still wanted to loose her virginity as soon as she could. She looked at her mom and then her dad and asked if maybe she could lose it tonight. She then looked at Jack and asked him if he would like to loose his as well. Dean asked her if she was sure she wanted to do this and she said she was and wanted Jack to do it. He asked Jack if he was willing and Jack replied he would be pleased to loose his virginity to his virgin sister. Page took both of her children in her arms and kissed them and told them this was something they would never forget. She told them she would help them get ready and she would show Jack what Suzie was all about pussy wise. Dean asked if they wanted to do it in private with just their mom and Suzie said she wanted everybody to watch and even asked Dean to get the camera. While he was getting the camera, June took the cushions off the sofa and Page went to get some towels to cover them. Pam asked Paul if he would be her first. He said he

would be pleased as well to make love to her for their first time. He kissed her like a lover and not a brother but their mom told them to cool it as this was Suzie and Jacks moment and they would get theirs later. She said they could kiss and hold hands but nothing else. They did not argue as they wanted it to be that way anyway. John just sat back watching what was happening and could not believe things were happening so fast but he wasn't going to stop it.

When Page returned with the towels and Dean with the camera, Suzie and Jack got down on the floor. Page told Jack to get between his sisters legs and she would show him the different parts of her pussy and how to make a woman feel good and get her excited. Jack did as his mother told him and Suzie spread her legs wide open. Dean was recording the entire thing with his digital camera. The first thing Page did was to open Suzie's pussy lips and show Jack the different parts. She showed him the inner and outer lips and commented how Suzie's inner lips were actually quit long especially for a thirteen year old. She pointed out and touched her clit and said it was larger than hers and when she touched it Suzie moaned and came a little bit. She said that was what caused most women to orgasm, clit stimulation. She told Jack to touch it and feel his sister, which he did and when he touched Suzie's clit she came again. Page said she was extremely horny and that women could cum several times in a row where a guy needed to rest in between times. Jack stuck his finger inside the pussy in front of him and when he was just past his first knuckle, Suzie said it hurt. Page said he had just touched her hymen and that for her to have full sex it would need to be broken, that was what loosing her virginity was all about. Page told Jack it was time for him to stimulate his sister with his mouth and tongue. He did so without thinking about it and was soon sucking on her clit and sticking his tongue inside her pussy. This caused Suzie to start cumming in almost a continuous stream and soon she begged him to fuck her. Their mom said Jack should get between her legs and she would help him line his dick up

the first time but after that she didn't think she would be needed. Jack got between his sister's legs and Page took his dick and lined it up. As soon as the head was in, she let go and told him to talk to Suzie and follow her directions from then on. He asked Suzie how she was doing and how she felt. She said it felt wonderful and for him to shove his dick in her and break her cherry. He started out slow but she had other plans and wrapped her legs around him and squeezed. This caused him to jerk forward and ram himself in hard. Suzie screamed and Jack thought he had really hurt her but his dad said he had just broken through and to hold still until Suzie told him to continue. It only took a couple of seconds and Suzie said for him to go slow as she was sore but liked the full feeling. Jack started out slow and easy and before they either one realized it they were fucking hard and fast. Because Jack had cum not too long before, it took the hair trigger edge off and he was able to last long enough for his sister to enjoy herself as well. Of course Suzie was almost continuously cumming anyway so he could have cum as soon as he was full inside and it would probably not have mattered to her. Jack soon told everybody he was going to cum and Suzie told him to cum inside her as she wanted to know what it felt like. Jack started cumming as soon as Suzie told him to cum inside her and she said it felt very cool and she would always let any guy cum in her if they wanted. As soon as Jack was finished cumming, he pulled out and fell to Suzie's side. He turned his head and they kissed as lovers coming down from the sexual high they were just on. He told her he loved her and thanked her for being his first and that she allowed him to be hers. She thanked him as well and then she looked at Pam and asked her if she was thirsty. Pam knew what she was asking and dove between Suzie's legs and started sucking Jack's cum out of her freshly fucked pussy. This brought Suzie to another cum but this time she actually squirted a small amount. Pam stayed with her friend and soon had all of the

cum out of her and sat back licking her lips and smiling with a cum covered face. She crawled up and the two teen girls kissed as lovers for the first time.

Paul looked at the two girls and rather than ask or wait he went behind his sister and lined his dick up with her pussy as she was kissing Suzie and rammed himself in. This caused Pam to scream and she yelled at him to get the fuck away from her if that was the way he was going to treat her. He pulled back and apologized to her and she said she had wanted him to make love to her not rape her. John took hold of his son and told him he would beat the shit out of him if he ever saw or heard of him treating another woman like that again. He added some people did like that style of sex but most people did not. Paul continued to apologize to everybody and especially his sister. He looked at her and asked her if she could ever forgive him. She said she would think about it but he was not getting any of her pussy tonight, she said in fact even though he had broken her cherry, she then looked at her dad, she said he was going to make love to her first. John told Paul it served him right and he would be pleased to introduce Pam to sex the right way. He took his daughter into his arms and started out licking her face of all the cum that was all over it and when he saw she was clean he started French kissing her.

Pam was moaning in enjoyment the whole time and she reached down and took a hold of her dad's dick and started stroking him. He of course had been hard the entire time so it was no problem for her to grab it and start jacking him off. He soon told her to lie back as he wanted to please her orally. She did and he was between her legs and started licking and tickling her. She begged him to eat her but he kept up what he was doing and finally he stuck his tongue in her pussy and she came all over his face. As soon as she had come down just a little bit from her cum. John lined his dick up with her pussy and asked her if she was ready she told him she was more than ready and he entered her slowly but without stopping until he was fully inside her. He

held himself still for a minute letting her get used to the feeling and slowly started going in and out. He could tell she was doing fine and started going faster until he was banging her hard. She kept telling him harder and faster. He could tell he was going to cum and he told her he was close and she begged him to cum in her as she wanted to know what it felt like as well. John started cumming and she said it felt like he had turned on a hose inside her pussy. He finally stopped cumming and they lay together catching their breath and bringing their heart beats back to semi normal. John was soft and he all but slipped out and when he did, Paul asked Pam if he could clean her up. She looked at him and asked him if he was going to try and rape her again. He said he was so sorry and would never do anything so stupid again. She said he could clean her up then.

John got out of the way and everybody expected Paul to use a wash cloth but instead he got down and started sucking his dad's cum out of his sister. He brought her to several more orgasms before she shoved him away and told him he could eat her pussy anytime he wanted. June and Page were sitting there the entire time watching and finally they could not take any more and Page attacked June. They started making out and were soon locked in a 69 position eating each other's pussy for all they were worth. The mom's brought each other off several times until finally they fell apart exhausted as well. Both families could see they were going to be sexually active with each other from that point on and were okay with it. John said it was time they headed home as they all had to get up in the morning. June said she would be taking their kids to register as absolutes and Page said she would be doing the same. They all kissed good bye and John and Page's family went home. Neither family continued their sexual investigating for the rest of the night. They all went to bed shortly after they separated. The difference being that the teens decided to sleep together instead of in their own rooms.

The next morning Page and June met with the kids and walked to school. The unusual thing was they were all nude when they left home. As they were walking to the schools, they heard a few people shouting out to the girls what nice tits they had and even a couple girls' comments on the boys. Soon they were at the middle school. Page walked in with Suzie and went straight to the office where she registered Suzie as an absolute. The principal had decided all staff was to be nude the first day so it made it easier for the students. Suzie was the first to register as an absolute and he told her how please he was. They went over the rules and she was fitted with her wrist and ankle bands. Page kissed her goodbye and told her if she had any problems to be sure to come to the office and call her. Suzie said she would and left for her first class. Page thanked the principal and told him she had to leave and register he son at the high school as well. She walked out and went next door to the high school where she found June and the three teens waiting for her in the office. She saw the staff there were naked just like they were at the middle school. Both moms and the teens went into the principal's office and sat down. Page and June told him they were there to register their kids as absolutes. He looked at Paul, Pam and Jack and asked them if they were agreeing, since they were high school students they had some say. The three of them all told him they were looking forward to the program and they had become absolutes at home as well and indicated their nude mothers. He said he thought that but needed to make sure since he was required to ask per the rules of the absolute program. Page and June both signed the papers as did Paul, Pam and Jack. The kids were fitted with their bands and told to go to class. The principal thanked them for participating as they were walking out of his office. Page and June thanked him and told him they didn't expect any problems but their kids were told to call them if there were. He said he didn't think there would be.

At all of the schools in the district an assembly was called at 9am. All of the student bodies assembled in their schools and soon a live video feed was being shown on the big screen in front of them. It was the district director and he told them he was sure they had seen that all of the staff at every school was nude in front of them and that there may be some nude students as well. He went on to explain the N.I.S. program to them and told them since it was new it would officially start on the following Monday but on Friday, the next day, they would have their first lottery drawings. He said for the remainder of the week any student could choose to be naked but it did not count toward their required week. He told them about the absolute program and then explained how those who were not absolutes would be required to perform sexual acts. He said in the elementary school there would be no sex, just exploration to learn the different body parts. He said if an absolute had a special wrist and ankle band on they were in the sexual portion and would be required to perform just as any other student. He closed with saying the principal of each school would answer any questions and said how much he was looking forward to being part of the national program. The screen went black and the principals all stepped in front of their schools.

Not surprising the most of the questions in any school were from the little kids as they hardly knew what their own bodies were like let alone what sex was. Each school principal answered every question put to them by their student body and soon it was time for lunch. The students were dismissed and said they would resume normal schedule after lunch. Pam, Jack and Paul were the talk of the high school and quickly surrounded by other students asking them what it was like to be nude and since they were absolutes were they ever going to have sex and such. Pam was the first to speak and she said she loved being nude and they had decided as families last night they were all going to be absolutes, including their parents. She said they had all had

sex together the night before and her dad had made her a woman. Jack said he had made love to his sister who was next door in the middle school. Some guy asked Paul what it was like and before he could answer Pam said he had tried to rape her instead of being gentle or asking so he didn't know what it was like yet and he was restricted from any sex until their dad gave him permission. All the guys told Paul he was such a fool having such a hot sister to fuck and some of them said they had seen his mom earlier and she was hot as well. He hung his head and said he would never do anything like that again. Pam French kissed him in front of everybody and told him she was going to ask their dad to let him fuck her that night.

Next door at the middle school, Suzie was the talk of the entire school since she was the only nude student. During their assembly she was called to the stage and her wrist and ankle bands were shown to the students to show what an absolute looked like and they were told she would not be participating in the sex part. She spoke up and said at that time. She had asked but her parents told her to wait and she could participate later in the year. She shared the sexual experiences from the night before at home and she looked at a boy she had sort of a crush on and said she found out she loved sex and would be doing it as often as she was able. He could see her looking at him and smiled. The assembly ended at the same time as the high school and they all went to lunch. During lunch the boy she liked, Petey, came up to her and asked her if she would ever think about having sex with him. She said he was the person she was looking at when she said she would have sex any time and said to meet her after school and they could go to her house if he wanted. He told her he would be pleased to go with her. She kissed him and said she was looking forward to then. She went of her classes the rest of the day and he went to his. After school they met in front and started walking toward home when she heard her brother as well as Paul and Pam call her name. They waited and were soon joined by the high schoolers.

They all walked and talked about their day and how it went and Jack asked what Petey thought and what he was doing with them. Suzie said Petey was coming home with her and was going to fuck her. Jack said she had better clear that with their parents first. Suzie said she didn't think she needed to but would ask mom when they got home. Petey was slightly embarrassed because of what Suzie said but also because he was dressed in clothes and the rest of them were nude. He had them stop and he stripped off his clothes and put them in his back pack. Suzie looked down and smiled and he looked down and saw he was hard and sticking out. He started to cover himself when Paul said it was no big deal, he had been hard most of the day. Petey relaxed as best he could and they continued walking. As soon as they got to their homes, Pam and Paul said goodbye and went into theirs while Jack and Suzie, along with Petey, went into theirs and found their mom sitting at the kitchen table drinking a cup of coffee looking at her lap top screen. She looked up and was surprised by Petey being there and that he was also nude. Petey was introduced to her by Suzie and then Suzie said he had come home to have sex with her and would it be okay. Page told Jack to leave them alone. He went to his room for a minute to drop off his books and yelled out he was going to shoot some hoops at the park down the street. Meanwhile in the kitchen, Page could not believe her daughter because before the night before she had never acted this way. Page said she was not sure about them having sex and asked Suzie why she wanted to. Suzie said she had had a crush on Petey for a couple of years and now that the N.I.S. program was there she thought it was time to act on it. Page asked Petey what he thought and he said he thought Suzie was a real hottie and he would love to be allowed to have sex with her but if she (meaning Page) said no he would understand. Page said it wasn't so much if she said no or not, it was the shock of Suzie bringing him home in the first place.

She looked at his dick and said he had nice equipment and reached out to touch it. No sooner did she touch it and he started cumming all over her hand and the floor. He started to turn red from embarrassment and tried to turn away. Suzie saw him cumming and fell to her knees and sucked his dick into her mouth. She sucked him until he was done cumming and licked her lips after she pulled away from him. Her mom licked her hand of his cum as well and both of them told Petey how good he tasted. This embarrassed him more and Page told him to sit down and they all needed to talk. She told him what he had done was perfectly normal and he would get used to sex after a while and not have what was called a hair trigger. She said she had tasted quite a bit of cum in her life and he did taste very nice. She went on to tell him she didn't think it would be a good idea for him and Suzie to just start having sex with each other because she became an absolute. He started to say something but she asked him to let her finish and looked at Suzie and said she should not say anything as well. She said while she had no objections to either of them having sex she wanted them to make sure it was for the right reason. She added if they were in the N.I.S. program at school she knew they would probably be forced to do it but since they were asking to do it at home it fell into a different category. She asked Suzie why she wanted to have sex with Petey. Suzie looked at him and said she had had the crush on him for two years and had thought for almost the entire time she would love to have sex with him. She reached out and took his hand and told him she really liked him. She asked him if he wanted to have sex with her. Petey looked at her mom first and she nodded her head and then he looked at Suzie. He said he would be very happy to have sex with her or he would not have come home with her or taken off his clothes like he had. Suzie started to say something but he interrupted her and continued with but. She said but what, as she grabbed her hand out of his. He said he liked her and all but he was not sure he wanted to only see her as they were just thirteen and he liked a

lot of different girls and he would like to be able to have sex with them if they were in the program. Suzie started to cry but he reached for her hand and said she was beautiful and if she would say it was okay for him to have sex with others if they were in the program or if he was he would be okay with her having sex with others as well.

Page spoke up and said she thought they should both just be friends for now and to get to know each other in a different way since as she saw it they were both unsure what they really wanted from each other. She told him she thought he should probably go home and leave them to talk. He got up and as he started to leave, he thought and decided to put his clothes on. He did and Suzie came up and kissed him on the cheek and said she hoped they could work things out as she still would consider having sex with him sometime. He kissed her on her cheek and said he really liked her too and went out the front door and left. Suzie immediately broke down into tears and her mom took her in her arms and comforted her.

Next door Pam and Paul went into the house and saw their mom watching TV and of course she was nude. They walked in and greeted her and she asked them how the first day went. They said they had enjoyed the day and had no problems. She asked if they had had sex at school. Pam said they had not but after the morning assembly they answered questions from fellow students all day about them being the first in the absolute program. She said they didn't have any problems with others trying to force them into reasonable acts since they were absolutes. Pam asked Paul if he wanted to go fuck as she was horny from the day. He asked her what about him being in trouble with her and she said she forgave him as long as he would never try to rape her again. He looked at the floor and then at her and said he was so very sorry and he would never even look at her in a bad way. June said they were welcome to have sex there in the living room if they wanted and she would be pleased if they let her join them. Pam said she had

not problem and told her mom to spread her legs. June spread her legs and Pam got down on the floor between them while Paul sat next to his mother on the sofa. He kissed her and played with her boobs and nipples while Pam started exploring her mom's pussy and soon had her face buried in to licking it and eating it for all she was worth. June started cumming all over her daughters face and pushed her away. She thanked her kids but told Pam it was her turn and traded places with her. June did the same to Pam and she had done to her and soon Pam was begging her brother to fuck her. Pam slid down onto the floor and spread her legs. June looked at her son and told him to get his dick in his sister and now that she was no longer a virgin he didn't have to be as gentle. Pam screamed for him to fuck her and fuck her hard. Paul started out gentle but was soon ramming his dick in and out of his sister and they were sliding all over the room. It didn't take long for Paul to start cumming since he was so horny from waiting. He told his sister he was cumming and she told him to cum in her pussy. Just as he was filling his sister's pussy with his cum, John walked through the door. He stopped to watch and when Paul pulled out he asked June who had started it and she said they had all been involved and he was just late to the party. Since he was already nude she sucked his dick into her mouth and brought him off quickly and then after she was done she said it was time to fix dinner and told Pam to get her ass in the kitchen and help her. John and Paul sat and talked about nothing in general. During dinner they talked about their days. June asked John how it was at work. John said he got a lot of looks in the parking lot and while going into the building but he was well received in the office. He said he called a meeting, since he was the boss, and told the entire staff what and why he was nude and encouraged the rest of his staff to think about being nudists. He said he had several people who said they were going to talk to their families and those that had kids in school said when their kids were in the N.I.S. program they would be nude with them. He told them they would be

considered in the program at work then and would be subject to the same reasonable requests as their kids. There were no objections and he said he was not going to be exempt as well and he was in the program as far as he was concerned from that point on at work. Pam asked if he had any requests and he told her only one young gal, just out of her teens, asked if she could look at his dick and see it hard as she was still a virgin and had never seen a real dick up close except the little boys under six she used to babysit. He allowed it and he got hard for her and he offered to cum and she was thrilled so he jacked off onto his desk for her. He said she touched and tasted his cum from the desk but was not ready to take it from the source. June told him he was just a dirty old man and wanted to show off for the girl, he told her to watch the “old” stuff and they all laughed. He asked Paul and Pam how it went and they said there was an assembly right after school started and the district director did a closed circuit live broadcast to all the schools explaining the N.I.S. program and they were called up on stage to show their wrist and ankle bands. They showed them to their dad. He asked them if they had any problems and Paul said a few of his friends gave him a bad time but no real problems and he told his friends to remember he was an absolute when they were in the regular program and that shut them up. Pam said she got a few requests from some of her friends, both guys and gals but turned them all down and like Paul, she reminded them she was an absolute. The finished dinner, the kids did their homework and June and John made love on the living room floor. Paul and Pam decided they were going to share a room from then on for sleeping and cleaned out Paul’s room, since it was the smallest, and moved Pam’s desk in there to make it into their study/homework room. Everybody was happy at the end of the day and all went to bed. Paul and Pam made love one more time and he started to apologize to her once again but she stopped him and said never to talk about it again.

The next morning the entire town was on pins and needles knowing that the schools were going to have their first N.I.S. drawings and on Monday the program would officially start. The drawings were at the end of the day so the students all talked about who they thought should be in the program and some of them hoped they were, while others hoped they would never be picked. A few said they had talked to their parents about being absolutes but none of them had been signed up yet as their parents weren't sure they should be nude for the entire school year but only for a week if they got picked. The kids reminded them if they were picked they would have to be having sex at school and their parents said it would be good for them. Many students reported they had had sex with a family member to take care of losing their virginity so, especially the girls', it didn't hurt as bad when they had to have sex at school. At 1:00 the principal in each school came over the PA system and said the students to participate in the program next week had been drawn and they named them and called them all to the office. In the middle school it was Petey as one of the students. Suzie and he were in the same class and when his name was called he looked at her and shrugged his shoulders. He went to her and said she could have the first request on Monday if she wanted unless she hated him. She said she would think about it over the weekend and he walked out the door to pick up his paperwork and get banded.
