The Scott family had planned their vacation for over a year. This year they were going to take a float trip down the Colorado River. This trip was a week in length and was in wilderness area so there were no facilities anywhere along the way. The entire family was looking forward to this as they all loved the outdoors and the more remote the area the better they liked it. The guide company said there would only be one other group during the week they were there and they were heading out the day before so they would probably not see each other. The Scott family consisted of dad; John (40), mom; June (38), son; John Jr. (15) (they called him Johnny), oldest daughter; Sarah (16), and the baby; Sally (14). When John made the reservations he asked if it was okay if they went nude during the trip as they were nudists and knew there would be plenty of sun and fun to be had. He was told it would not be an issue as many of the companies customers liked to enjoy the trip nude and the guides had no problem with it, in fact if the clients didn't care the guide went nude as well since they enjoyed it too. John told them his family

would have no problems but he did tell them the children's ages and was again told it would not be an issue. He thanked the woman on the phone and told her they were looking forward to the trip.

What he didn't tell her was that his family was also a family that loved each other very much and they all had sex together. He and June had come from incestuous families and had decided to raise their children the same way. Nobody was forced into it but none in either family said they didn't want to join. Their family's had a tradition where each of the kids had their first actual sexual act at age ten but they were allowed to watch and ask questions from the time they were born. Each of them was nursed and it was not uncommon for John to cum on June's tits just prior to nursing the kids. They grew up swallowing his cum. June was known to cum and rub hers on her nipples too. June nursed each child until the child decided they were done, Sarah went the longest until she was almost three. She of course was talking by then and if her dad didn't cum on her mom's tits or her mom didn't rub her cum on them she wanted to know where her yummy cream, as she called it, was. John and June knew they had a cum slut on their hands at an early age but they told each other they would still wait to introduce her to the actual sex act until the age of ten. By the time Sarah was seven, they knew that there was no way they could wait until she was ten. Sarah kept asking her mom when daddy was going to put his thingy inside her like he did June. June told her his thingy was called a cock or dick but not a thingy. Sarah decided she would call it a cock. She also made comment about Johnny's being so little, and asked if she should call his a cock too or what. June told her it was still a cock, just smaller because Johnny was only six. June figured it was time to talk to John about the kids and how Sarah wanted him to fuck her.

June told John what Sarah had said about wanting him to put his cock in her. John said he thought he was too big and would hurt her if he did. June said they could and would start working on Sarah's little pussy to get it ready. John said he liked the idea. The both looked at each other and said they were breaking a long family tradition of waiting until the child was ten but thought it would be okay since it was their children and not another family member's kids. June and John went to Sarah and sat her down to talk to her about what she wanted John to do. They talked to her for quite a while asking her all sort of questions and making sure she really wanted her dad to fuck her at such a young age. Sarah was finally able to convince her parents she was ready. She crawled up her dad's and begged him to fuck her. She took his cock into her hand, as she had seen her mom do many times, and jacked him slowly. John reached between her legs and discovered his young daughter was dripping wet. He was surprised and told June to feel. June reached between Sarah's legs and found her daughter to be even wetter than she got when she was ready for John to fuck her. She took her finger and started rubbing her daughter's pussy and carefully put one inside. She expected to find Sarah's hymen but her finger kept going in and in and finally she had her entire finger inside and all Sarah did was moan in pleasure. She told John that Sarah had no hymen. Sarah spoke up and said she had been sneaking her mom's vibrator and had been fucking herself for about six months with it. June told Sarah to lift up some and June lined up John's cock and told Sarah to sit down and fuck herself. Sarah did just that and she sat down hard and fast with no hesitation. In a short while, more like about 2 minutes, John said he was going to cum. Sarah told he she wanted him to cum inside her and then she wanted her mom to lick her pussy clean.

June looked at John and he could only smile at her. She told Sarah to stay where she was and got between their legs. She told Sarah to lie back on her dad and she would eat her pussy for

her. Sarah leaned back and turned her head and John lifted his head and they kissed as best they could. June meanwhile started eating Sarah's pussy and licking John's cock and when she had cleaned up both from the outside as best she could she told Sarah to slowly lift off her dad's cock. As Sarah lifted herself June was right there cleaning John and when he was out completely June had Sarah get beside her dad and June dove in with a vengeance sucking John's cum out of their daughter. Sarah was beside herself with what her mom was doing and she quickly started cumming, adding to the liquid June was drinking. John sat up to watch and his cock started getting hard again. Sarah was so out of it she had no idea but June did see it and motioned John to get on top and fuck Sarah again. He crawled over Sarah and June lined his cock up and he shoved his cock in a lot faster than he wanted to and Sarah opened her eyes in surprise and could only scream out; " YES DADDY, FUCK ME HARDER!!!" Her scream brought her brother and sister into the room running because they wanted to see what was happening. They didn't know Sarah was going to start having sex that day. When they came into the room they were both full of questions to their parents and Sarah. They asked Sarah what it felt like but the biggest question they had was when they could start having sex like Sarah. John told them they had to wait until they were older. Johnny said he was only a year younger and Sally said she wanted to get fucked like Sarah had. They did the usual kid thing and begged and pleaded but this time it wasn't for something like a puppy or some video game. John said he would discuss it with their mother. June said they would get back to them but no promises.

John and June talked later after they had gone to bed for the night and decided they might just as well fuck the other two kids as they would not let it go until they were having sex too. The next morning all the kids came running and jumped in bed with John and June before they had even woken up. They wanted to know what they had decided, were Johnny and Sally going to be

able to start fucking. June took Johnny in her arms and John took Sally and they kissed both of them like lovers and told them yes they could start fucking. Sally looked at John and then at Johnny and said she wanted her brother to fuck her first as she loved him so much. This surprised everybody. This was the start of the entire family fucking and sucking almost everyday. John reminded all the kids that if they were going to be out fucking anybody outside the family, they needed to tell the rest of the family and always to use a condom. Sally asked why and was told because of STIs. Johnny said at that time he was not interested in anybody but family. He did ask if he could suck his dad's cock as he wanted to see what that was like. John said he could as bi-sexual practice was common in their families. June took the girls to the Doctor shortly after they each turned 12, neither had started their periods yet but June didn't want to take any chances, and had them put on birth control pills. They knew a Doctor that was also into family fucking so it made it easier. After the girls were on birth control pills for a while they both started their periods and eventually ended on the same day and continued through life having them at the same time. It was hell for the guys in the family to not have their pussys available but they had two other holes so it wasn't totally bad.

The family was getting packed for the river float and Sally asked what kind of clothes she should pack. June told her that during the day they were going to be nude but at night it got chilly so she should pack for that. She was told the trip was a week long but to not pack so much that the raft sank. Sally was one that would take her entire closet on vacation if she could. Sally did the typical teenage attitude response of "Oh Mom!" June told everybody to make sure they shaved as there wouldn't be much opportunity to shave on the float, the entire family is what is called smoothies, they all shave their pubic hair and even though it is normally only women, the guys shave their legs and underarms. John even shaves his chest and stomach. Sarah spoke up as

she did often, and said they should have a shaving party and shave each other. The rest of the family thought it was a great idea. Of course it led to an all evening and into the night fuck fest. When they finished fucking, everybody thanked Sarah for thinking of it as they all had a fun time. The next morning they left for the river, they were to meet their guide at the guide office and leave their car there as the company shuttled their clients and rafts to the river and picked them up and the end of the trip allowing clients to park their cars in the safety of the company's fenced parking lot. Everybody was excited to go as they all enjoyed the outdoors and river rafting, this to be their longest float ever.

They arrived and were greeted by two young people, a man; Bill and a woman; Julie, who informed them that because of the family size they decided to take two rafts at no additional charge to John's credit card. What the family was not told was that Bill and Julie were brother and sister and also nudists. John thanked them and the group was soon on their way to the launch point. When they arrived the kids started to take their clothes off but Julie asked John to have his family keep their clothes on until they were on the river for a couple of miles and then they could strip. They soon had the rafts in the water, loaded and told the family to jump in. Everybody was excited and the kids were told to follow the guide instructions to keep them safe and it would make the trip even more fun. It only took about 10 minutes for them to reach the point in the river the guides said they could take their clothes off. The rafts were pulled to the rivers edge and because there was no other rafts scheduled until the next day, they were able to get out and strip. As the family was quickly disrobing, John saw their guides were doing the same. John asked them if they normally guided nude and were only told then about Bill and Julie being siblings and nudists. He caught out of the corner of his eye Sally getting down on her knees in front of her brother starting to give him a blow job and before John could react Bill looked their way. He

turned to John and said it looked like the family was going to have a fun time and told them he had heard through rumors they were a loving family and that is the reason for the two rafts and having Julie as the other guide. With that he pulled her to him and gave her a big French kiss and informed the family their family were also lovers. June said it definitely sounded like they were going to have a fun time. After their clothes were stuffed into the dry bags everybody loaded up again for the week long adventure. John and June got in different rafts, John in Julie's raft along with the girls and June and Johnny got in Bill's.

End of Chapter One, what is going to happen from here on during the trip? I don't know, wait and see.
